DESIGN POUL CADOVIUS

Power-stretch this carpet tight as a drum, Mr. Installer... it's double-backed with JUTE-ON-JUTE

If you specify, purchase or handle contract carpets, this is important to you. When both primary and secondary backings are Jute in the same carpet, there's enough strength to take maximum tension in any direction—and hold it permanently without slackening up and requiring restretching later. When *both* backings are Jute, you're in good shape—and so are your carpets. When they're not *both* Jute, anything can happen! So make it Jute-on-*Jute* backing in your carpets, and *insist* on it.

(Published by the Jute Carpet Backing Council, Inc.)

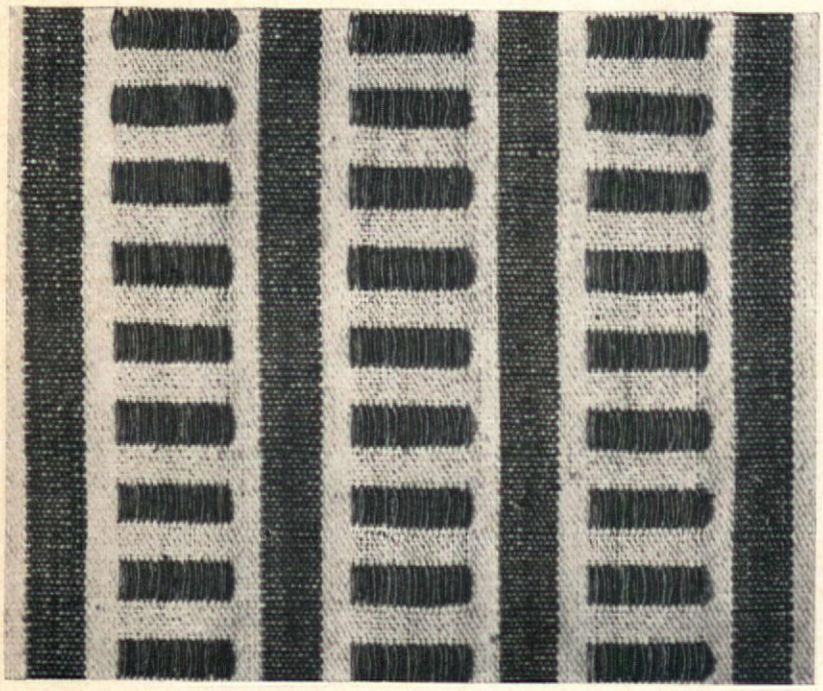
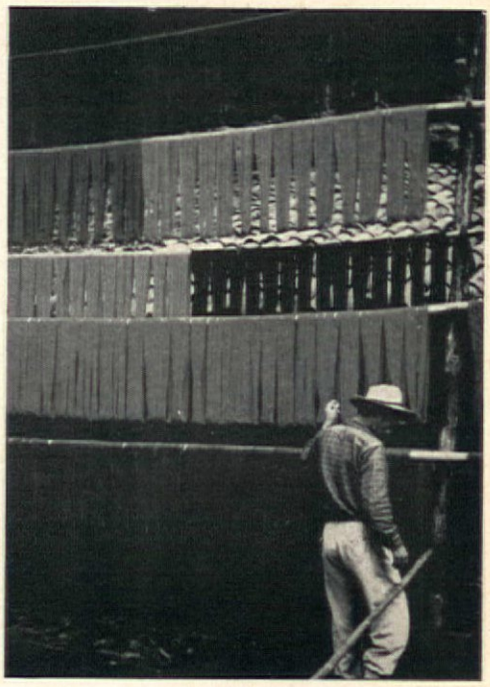
Remember the days when cloth was woven in the home with hand-dyed yarns by men and women who loved their trade? Herman Miller continues this tradition in the small Mexican village of Urawapan. The yarn is dyed in a bathtub and hung outdoors to dry. Then it is woven in the homes of many villagers.

The result is Mexicotton and Mexidot/designed by Alexander Girard





Sample portfolios by return mail

HERMAN MILLER TEXTILES

ZEELAND, MICHIGAN 49464

Once upon a time, in the land of Anaheim, California, there lived an executive housekeeper. Her name was Veneta Wilson, and she was in charge of 450 guest rooms at the famous Disneyland Hotel.

One morning, she happened to hear a young lady complaining of a poor night's sleep. And the very next day, a rather tall, slender gentleman remarked that the bed was too short, and that his feet hung out over the edge! "That settles it," cried Veneta. "Something has to be done!"

You see, guests at the Disneyland Hotel hardly ever find anything to complain about.

In fact, Veneta was so shocked she sent out an emergency call to Frank Bret, the general manager of the Disneyland Hotel. "What am I going to do? I heard two guests complain about the mattresses! You've got to help me," she pleaded. "Compose yourself, Veneta," said Frank reassuringly. "I'll call Fred Sobek from the Simmons Company. He'll know what to do."

Naturally, we all know what Fred suggested. Beautyrest mattresses. 80" long. Five hundred and fifty-five of them!

Today, Mrs. Veneta Wilson is the happiest, most contented housekeeper you'll ever meet because now her guests can sleep comfortably ever after.

You almost squeezed under that rush job deadline. But your fabric finisher flattened you with a late delivery. And you're all washed up with a client who counted. Don't let it happen again. Put yourself back in shape with a call to Kiesling-Hess. **With its newly-acquired Perma-Dry Division, Kiesling-Hess is a bigger time-saver than ever.** Now same-day service means that goods delivered as late as 2:00 p.m. are expertly finished and on their way to you the same afternoon. That goes for everything from Ze Pel® and Scotchgard* Brand Stain Repeller to flameproofing (California approved). No wonder Kiesling-Hess is the fastest growing fabric finisher in the country. They iron out problems, not decorators.

Steelcase comfort has a great new shape...

. . . and amazingly rugged construction! Both are part and parcel of chairs in the new 450 Series! They feature an exceptionally lightweight shell of compressed rigid urethane foam — molded by the same method often used for boat hulls, airplanes and exterior wall panels. A flexible foam covering emphasizes their compound curves, provides just the right back support. Complete comfort is assured by a 3" latex foam seat cushion. And, "around and under" upholstering makes them handsome from any viewpoint. There are eight models: full swivel, return swivel, stationary pedestal, leg style — for private offices, general offices, conference rooms, conversation corners. For complete details, please write Department K, Steelcase Inc., Grand Rapids, Michigan; Los Angeles, California; Canadian Steelcase Co., Ltd., Ontario.

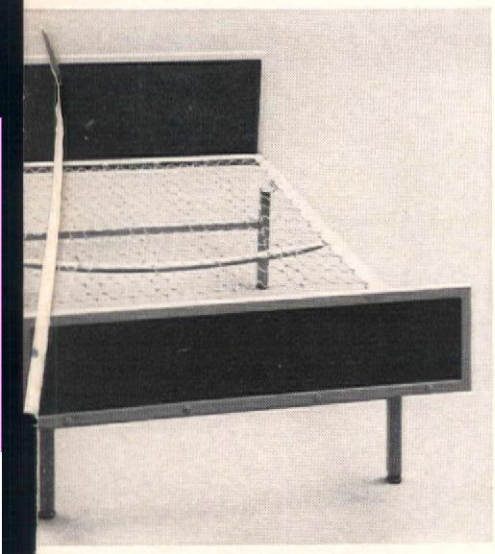
Flat-Top bed as single unit with Sunburst panels

Flat-Top bunk beds with Metropolitan end panels

Flat-Top bed frame with hardwood panels

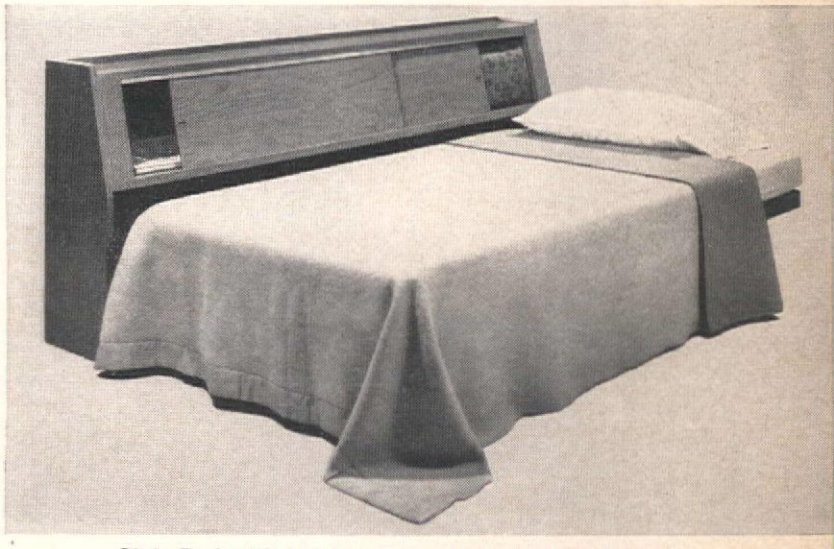


Continental with rectangular panels and straight legs

All of these beds have two things in common,

Continental with Butterfly panels and sloped legs

Glida-Bed closed for daytime use



Glida-Bed with bolsters removed and opened for sleeping

the most important of which is comfort.

The second is No-Sag® Springs. (And don't you think arranging things in that order didn't take some restraint.)

Actually, one means the other. Because comfort is what we're selling. And that depends on correct sleeping posture, not the type or style of bed.

No-Sag Springs keep the spine straight by not only supporting the body but conforming to it. And that's true of every bed/frame assembly we make. For hospitals, colleges, prisons, institutions. As well as our exclusive convertible Glida-Bed® for hotels and motels.

Let us make sleeping all it's supposed to be for you. Drop us a line. Tell us your requirements and we'll send you further information. No-Sag Spring Co., Dept. C166, 124 W. State Fair, Detroit, Michigan 48203.

Which chair cost the least?

You're wrong if you think it's the one on the left!

Ames exclusive 5-year guarantee is *your* guarantee that tacky-looking webbed furniture is far from a bargain!

Even spanking new, it looks cheap to your guests—strictly from their corner supermarket!

Give it a few weeks and it starts looking shabby . . . and, by season's end, you usually have to start singing *Goodbye Forever* to your investment and start plunking out dough all over again.

With Ames it's different. Thanks to our special heavy-duty construction—sturdy extra-resilient vinyl cord, hand-wrapped over weather-resistant tubular steel frames—we can guarantee you won't have to replace your casual furniture for five long years. Unless you take a sledge hammer to it or something!

So doesn't it make sense to invest in Ames . . . especially when it's so much smarter looking, so much more comfortable . . . and so much less expensive in the long run?

We thought you'd agree. That's why the coupon.

Mail coupon today for color catalog and prices

Until today there were only two ways to cover an office floor.

The hard way.

The soft way.

Now there's the right way. Densylon.

And the designer*, executives, secretaries and maintenance people of the Jewel Tea Company love it.

The secretaries love it because it makes the "pool" such an attractive, quiet, warm place to work in. It has the feel, the look, the hush of beautiful carpet. Not hard and skiddy and noisy like those high polished floors yet chairs roll over it easily (because Densylon† has a tough, dense, smooth Caprolan® nylon pile bonded to a cushiony 3/16" slab of B. F. Goodrich sponge rubber).

The executives love it because it's a godsend not to hear high heels clickity-clacking down the halls.

The maintenance people love it because it costs only about half as much to maintain as hard floors**. One man, one vacuum, once a day. For 50,000 square feet! Spills—even permanent ink, carbon paper—sponge right off. Washes easy as tile too, but only needs it about once a year.

The comptroller loves it because it holds down insurance costs. Heating costs too. There's far less danger of lawsuits from people skidding, like on hard waxed floors.

The designer loves it because it performs as promised. Doesn't get that drab, tired, worn look. Doesn't show traffic lanes. Or crush marks—from chairs, tables, high heels. Aesthetic and utilitarian. Eliminates the frustrating restrictions of the "practical" vs. "luxurious" areas—an unprecedented opportunity for more freedom of design... more unity of expression. What's more, Densylon maintains a staff of specialists to supervise installations from start to finish.

The management loves it because it costs nothing. Pays for itself with savings in maintenance alone. Creates a fine image too. Less institutional. Good business.

Bruce Posey, Jewel Tea's Office Service Manager must love it or he wouldn't have approved it. For the entire building.

Densylon doesn't do things the soft way, like carpet. Or the hard way, like tile. It does things the right way like Densylon.

Densylon won't crush, pill, fuzz, lint, buckle, ripple or shrink like carpet... never needs restretching, and doesn't need constant washing, waxing, stripping, like tile. Allied Chemical's high density continuous filament Caprolan® nylon yarn is the toughest, strongest, dirt and stain resistant known to man!

That's why you'll find Densylon in thousands of offices, department stores, restaurants, hotels, motels, apartments, houses, churches, temples, theaters, banks.

And thousands of unexpected places such as drugstores, cafeterias, supermarkets, automobile showrooms, restaurant kitchens (Densylon's creating a revolution in residential kitchens too), hospitals, nursing homes, schools—even airport outdoor passenger loading ramps!

To get the whole exciting story, send for our Fact Book—"DENSYLON — A Breakthrough in Flooring Technology!"

You'll love Densylon too.

**Robert Warner; president of Business Interiors of Forest Park, Ill.*

***From actual cost figures supplied by the Chicago Floor Maintenance Company—one of the two largest contract maintenance firms in the world.*

Just 8 of 56

There are 56 basic lighting units in the Miller High-Light line of incandescent fixtures. A single application for just 8 of them is suggested here. The other 48 units are in our catalog.

Among them are recessed and surface round downlights — accent lights, multipliers, baffled, louvered, and cone lights, wall washers and blending lights — you name it. Also, decorative white glass, aluminum cylinders, and swivel accent units. Recessed squares, too. Altogether, with wattage variations, mounting options, etc., we currently list a total of 220 fixtures. All are engineered for appropriate lighting function and are designed with appearance values that enable you to integrate them with your architectural and interior concepts.

Here, then, is the breadth, depth, and scope of selection to provide you with truly meaningful lighting design latitude.

Write, today, for our colorful, 32-page High-Light Catalog.

Duet in Dependability

PARADINE

POLYDUO

Commercial carpets of 100% Herculon* Olefin Pile by Masland

C. H. Masland & SONS

C. H. MASLAND & SONS · Carlisle, Pa.

*Registered trademark of Hercules Powder Company, Wilmington, Delaware, for its olefin fiber.

WHY CARPET?

Extensive studies by the American Carpet Institute show that the use of carpet in all types of commercial installations not only enhances the overall appearance and comfort underfoot of an area, but is practical and more economical than hard surface coverings as well.

- *Carpet cuts noise*
- *Carpet keeps floors warm*
- *Carpet is easy to maintain*
- *Carpet reduces maintenance costs*

WHY MASLAND?

Through years of experience, Masland holds a position of leadership in the design and manufacture of all types of carpet for commercial use. A large staff of experts at the mill in Carlisle, Pa. is ready to solve any problem related to a particular installation, no matter how complicated. In addition, Masland has the following men in the field (see back cover for addresses):

- *Six commercial carpet specialists, two in each major geographical section of the country.*
- *Forty-four Territory Managers, each thoroughly trained in the specifics of commercial carpet installations.*

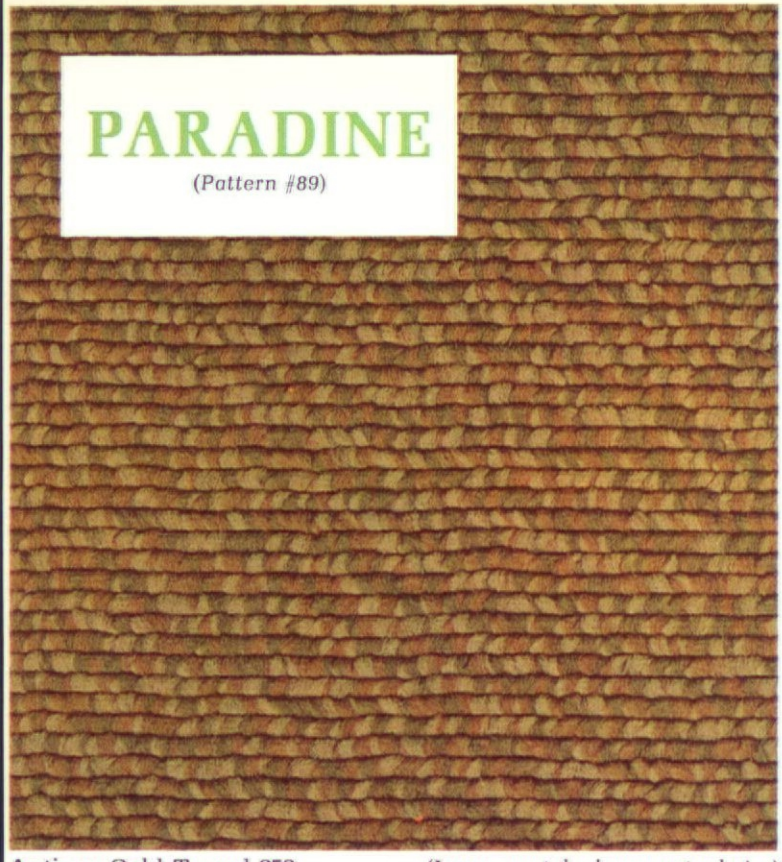
WHY HERCULON?

Herculon is an olefin fiber with characteristics that make it eminently suitable for commercial carpeting.

- *Herculon is chemically inert and the least moisture-absorbent of all fibers. Spilled liquids and solids tend to stay on the surface of the carpet where they can be readily removed. Static-free quality cuts down on airborne dust and dirt held in carpet.*
- *Herculon is a strong, sturdy, resilient fiber. It offers excellent resistance to heavy foot traffic.*
- *Herculon is a solution-dyed fiber and, as a result, the colors will not fade. In the manufacturing process, the fiber polymer and the dyes are mixed while still in solution, so that each color actually becomes part of the molecule itself. Therefore, not even a strong bleach can remove the color.*
- *Herculon is virtually static-free. Irritating shocks after walking on carpet are nearly eliminated.*
- *Herculon is non-allergenic, mothproof, mildewproof.*
- *The low specific gravity of Herculon assures more actual yarn per pound and more pile per square yard.*

PARADINE

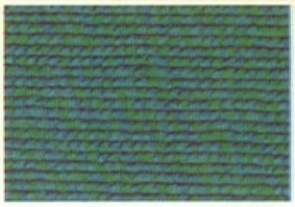
(Pattern #89)



Antique Gold Tweed 353 *(Large swatch shown actual size)*

The first *woven* carpet of Herculon. Velvet construction in a tight round-wire construction. Especially recommended for heavy-traffic areas such as corridors, stairs, lobbies, etc.

Regimental Red Tweed 142



Jade Blue Tweed 460

FRONT TO BACK: GLEN COVE IN ALL-AMERICAN STAINLESS BY ONEIDA AND TEMPO IN ONEIDACRAFT® DELUXE STAINLESS BOTH EXTRA HEAVY WEIGHT. COLEBROOK AND SENECA IN ONEIDA® HOTEL PLATE HEAVY WEIGHT.

In ancient Rome a cube placed in the hand of a visitor was a token of welcome. Its name—Tessera Hospitalis. Appropriately, this age-old custom provided the inspiration for Oneida's proud Mark of Excellence, beauty and craftsmanship. A warm welcome is expressed by the satin smoothness, comfortable balance and weight of Oneida Silverplate and Solid Stainless. Both have extra value for you. Oneida's exclusive balanced plating process puts more silver on wear points for longer service. The Solid Stainless is flawlessly finished and graded for extra strength. You'll like the all around greater economy you get from Oneida. Guests like the smart patterns. Choose the one that complements your decor in SILVERPLATE OR SOLID STAINLESS BY ONEIDA SILVERSMITHS.

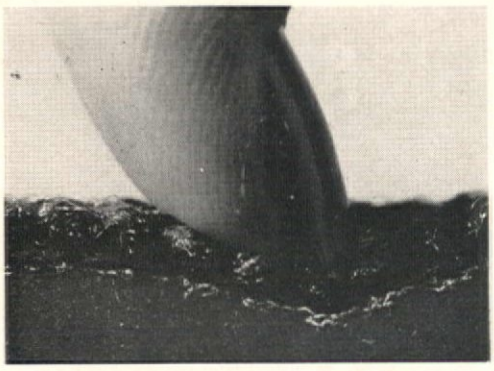
What's the point of turning this carpet upside down?

To show off its back side.
Because "Duke"* (the new commercial carpet by DuKane Textiles) has one worth the showing. High-density latex foam rubber *permanently* bonded to the back of the carpet forms a superb cushion. One that's really permanent. Because the carpet backing itself is finished with latex. And latex naturally adheres to latex. So, unlike other backings, there's never any separation. Just natural softness, light weight, marvellous bounce and resilience. Yet enough firmness for proper support. No wonder "Duke" is approved for government installations.

But what about the **TOP?**...turn the page and see!

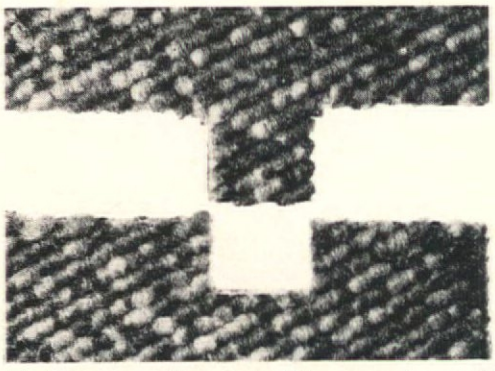
Circle No. 43 on product information card

Circle No. 42 on product information card



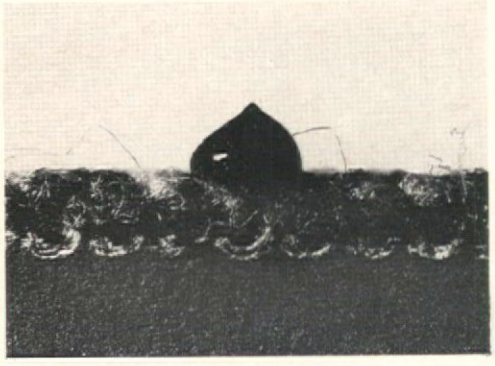
Duke is luxurious

Tweedy colors are warm and vibrant. The look is handsome. Thick rich pile. Densely woven by Collins & Aikman from specially textured 3-ply nylon tweed yarns. For beauty and strength. And great abrasion resistance. Made even greater by the resilient cushioned backing.



Duke is simple to install

DuKane engineered this carpet specifically for contract installations. Ends are clearly marked for cutting. They butt together. With no seams needed. Foam backing grips and can be cemented to any flooring. And no matter how you cut this carpet—for intricate fittings or to replace a piece burned by a cigarette—the incision never *shows*. The weave is that tight.



Duke is easy to maintain

Its tightly woven nylon pile never absorbs the dirt. Surface soil sponges off like that. Stains are quickly removed with a detergent. And because care is light, savings are large.

crazy mixed up

You're looking at Steelwood. And then again, you are not. Steelwood is Robert John's line of office furniture that's neither steel nor wood. And then again, it is. It combines the best features of both. So far so simple.

The framework on all cabinet pieces is sturdy, welded and smooth steel. And that's where predictability ends. After that it's chrome plated, with a satin or polished finish. Or it isn't. It might be bronze plated instead. Or it might be given a baked enamel finish in white. Or maybe black. Follow?

Panels and drawers and doors of teak are added. Correction: walnut. Correction: blue, yellow, green, brown, black, white, beige, red, grey or orange lacquer. Are you confused?

Take heart. The chairs we designed to complement Steelwood are a snap to spot. There are only seven of them. And they come in only 150 or so distinguished Robert John fabrics, leathers and plastics. For the variations in metal finish and wood trim, just re-read the last two paragraphs. Add rosewood. Get it?

If all this sounds like a furniture line with a personality split seven thousand ways to Sunday, it's because it is. And is not. Steelwood is all beautifully simple. The immense flexibility and the endless variations exist for the convenience and the individual discretion of the decorator. Not to mention the challenge. But, once you catch on, Steelwood makes things easier than automatic.

When people realize the trouble we took to design and develop Steelwood they say we're crazy. And we admit it.

Like a fox!

Cape Cod is Astra Country

Cape Cod, that windswept fishhook of sand dunes and salt marshes jutting out into the Atlantic, is vacationland for countless Americans. Every year, thousands flock to its magnificent beaches and quaint villages, looking for the true flavor of seafaring New England. Everywhere on the Cape, in hotels, motels, in restaurants that specialize in wonderful seafood, you find Astra Solid Hard Rock Maple Furniture. For what could be more truly New England than this sturdy Vermont-crafted furniture. Even Astra names smack of the sea — the sturdy Captain's Chair, the versatile Mate's Chair, the handsome Admiral's Chair, and a whole fleet of genuine Early American chairs, tables, and bar stools. Every one is built taut as a Yankee clipper, of northern hard rock maple. Deeply saddled seats with hand-pegged and wedged legs and armposts, steam-curved backs, steel-pinned joints — these are the cabinet-making details that keep Astra chairs shipshape season after season. Chart your course to Astra. Send for our brochure.

Stumped for a wood grain?

Nevamar has it... and over a hundred more!

Name your wood grain . . . any wood grain. It's a better-than-safe bet you'll find it in Nevamar's vast collection of over 100 wood grain patterns. From a wide range of oaks, maples and walnuts to exotic Javawood to the warm Mediterranean look of Pecan Del Oro . . . each Nevamar laminated plastic wood grain is a superb reproduction. Painstakingly accurate in color and detail. Made to keep its good looks through generations of spills, smears and hard knocks. And every wood grain is available in 7 distinctive finishes.

There's Fresco* finish . . . laminated plastic with the wood grain *you can feel*. Not a plate textured finish . . . but an exclusive 3-dimensional surface. Nevamar's new L.S.O. finish (low sheen oil) can take wax to accentuate its natural wood-like beauty. And one of our Satin finishes is plate finished, not rubbed. This means no buffing in production . . . no loss of surface finish.

You probably already use Nevamar high pressure laminated plastic to make your good furniture even better. If not . . . let us show you how Nevamar can help you where it counts most. In your profit pattern.

That extra touch of professional advice...recommend

Duraclean®

Airborne soil and improper cleaning can dim the elegance of the furnishings you specify. Your studied selection of carpets and upholstered furniture deserves the finest in follow-up service. Safeguard your client's investment and retain his confidence by recommending the safe, gentle Duraclean Process for care and cleaning of fine furnishings.

Six Duraclean Services add longer life and preserve the beauty of upholstery and floor coverings

Your Duraclean Specialist is trained to render a comprehensive service to please all of your clients with a better on-location cleaning service.

DURACLEAN—Tested and proved best by independent laboratories. It's recommended by leading fabrics and carpet mills.

DURASHIELD—The modern soil retardant that seals fibers to make regular cleaning easier—keep furnishings new-looking longer.

DURAPROOF—The most effective moth-proofing service—guaranteed to protect against moth damage for six years.

DURAGUARD—Flame retarding service especially recommended for theaters, hotels, restaurants, clubs.

SPOTCRAFT—Professional spot removal service that solves problems of hard-to-remove spots and stains.

TUFTCRAFT—Expert repairing of cigarette burns, pulled tufts and minor tears.

The *one* professional cleaning method that removes *more* soil—gently, safely

Gently, extra-dry Duraclean Foam loosens and absorbs greasy surface soil without soaking, without harsh mechanical scrubbing. Colors brighten, fabrics and carpet pile are enlivened, because Duraclean *removes* the soil . . . doesn't just scrub it in deeper. Your clients stay happy because their furnishings stay beautiful and new-looking longer. Call your local Duraclean Specialist for a free demonstration. Or send the coupon for your nearest Specialist.

THE CONTRACT SCENE

In developing the diversified picture story on the following pages, we have tried to give the reader a broader perspective than is ordinarily available to him on the range of commercial/institutional work being done throughout the country. Thus, unlike our recent Landmark Issues, which have been devoted to a particular locality or a single project, this editorial section roams across the United States, recording in words and pictures some of the more noteworthy efforts of contract planners and designers in a variety of settings—hotels, offices, banks, retirement home, stores, schools, and even a billiard lounge and a dental clinic.

Our observations: There is a great deal of competent work being performed in the contract field; some of it (a small proportion) is exciting and imaginative, some of it earns the epithet distinguished, but many of the installations we have examined lack merit and lean heavily on design clichés. Most of the clichés are low-brow, but a good many are high-brow; there is observable an easy and lazy acceptance of influences that have been percolating down from the top for all too many years. Not all the good work is contemporary, nor, need one add, is all the contemporary good. There remain many areas where traditional design can function with integrity and flair; we observe too that these old-fashioned virtues can fade or disappear in "modern" contexts as easily as with work that leans on the past. The installations shown here are a cross-section that constitutes neither a precisely calibrated report nor an *arbiter elegantiae*. But we think it shows direction—direction in originality, in conscientious attempts to achieve functionalism and a positive esthetics for the designer's client and hence for the public as well.

The Classified Directory Listings that begin on page 115—the chief reason for the publication of this issue—are like a challenge to the contract industry to improve its performance in 1966. The unprecedented abundance of products and services available to the contract specifier and designer should not only stimulate new directions in design but also should render stereotypes unnecessary. Under the circumstances we entertain great hopes for contract design in the coming year.—*BHH*

Worcester Public Library, Worcester, Mass. ■ Curtis & Davis, Architect/ Interior Designer

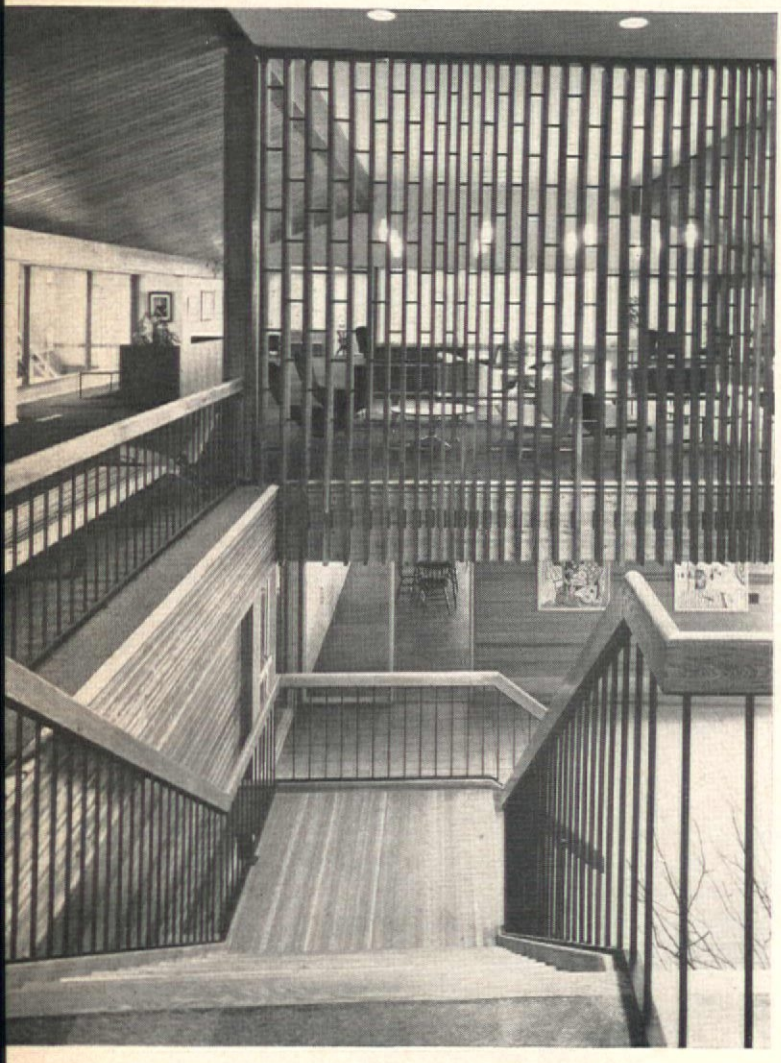
"A place of delight" was how the chief librarian described the new public library on opening day, and generous use of glass, sheltered by an exterior arcade, makes the interior an inviting display for the entire community. Spatial interplay created by alternating low and high ceiling areas affords dramatic vistas, yet necessitated delineation of specific areas. This was accomplished by furniture groups and by the use of color clusters—crimson/magenta/red/orange and blue/green/purple/bronze—in furnishings, carpeting, and shelving. The colors contrast warmly with the neutral gray tones of the interior concrete elements, with the tan quarry tile at the entrance, and with the architect-designed built-ins, in various shades of teak. The library, recently voted one of the most beautiful buildings in its city, was designed by Curtis & Davis; the multi-level interiors were created by the architectural firm's interior design department.

Furnishings notes: card catalogs, charging desk interiors by Remington Rand; metal-and-wood book stacks by Estey Corp.; A-frames, display shelves by Backus; reading tables by Sjostrom; reading chairs, secretarial chairs by Knoll; lounge chairs, meeting room chairs by Fritz Hansen; club chairs, sofas, benches by Roffman; miscellaneous tables by Burke; metal desks, files by Art Metal; carpeting by Gulistan; Nordic Gallery area rugs by Bigelow; drapery fabrics by Herman Miller and Design Tex; decorative lighting fixtures by Lightolier; Curtis & Davis-designed built-ins executed by Westfield Woodworking.

Photos: David Hirsch

Green Acres Hotel Addition, Lake Huntington, N.Y. ■ Planned Office Interiors, Inc., Space Planner/Interior Designer

Expanded lobby and dining facilities, card room, outdoor decks, indoor pool and baths, plus parking and building approach were included in the program to enlarge the resort hotel, situated on a steep site overlooking a lake. The predominance of wood paneling, ceiling decks, and divider screens injects a warmth that blends with and reflects the mountain-lake locale, while all spacious areas are handsomely enlivened with high-style contemporary furnishings for elegant comfort. Interiors were planned under the direction of Charles H. Winecoff and Diana Anderson. Blech & Goldfarb, architect, planned the oak and black-steel stairway. Suppliers: Furniture by Stendig, Knoll, Herman Miller; upholstery by Rowen, U.S. Rubber Naugahyde, Knoll; drapery fabrics by Design Tex, Thorp; pendant lighting by Prescolite; carpeting by Gulistan.

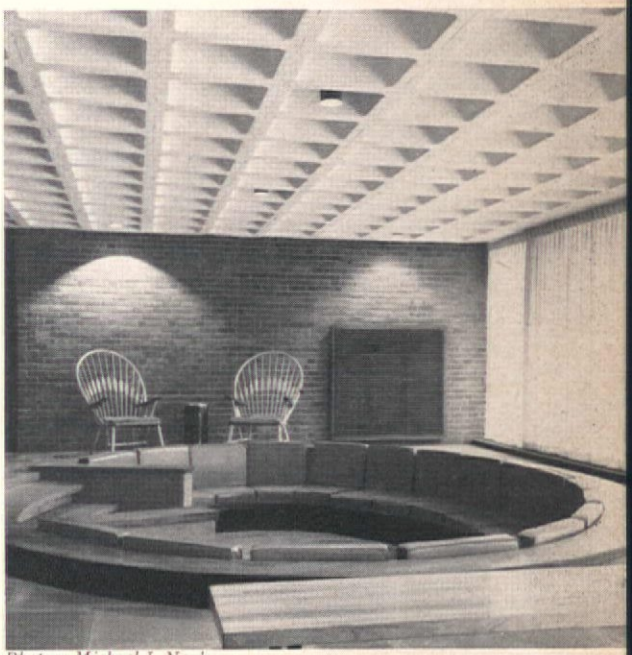


Photos: David Hirsch

Clark University Student Commons, Worcester, Mass. ■ The Architects Collaborative, Inc., Architect/Interior Designer

A striking spatial expression, the central two-story open well was conceived as a unifying form relating student activities in general. It also breaks up the dining facilities into two smaller areas, thereby minimizing the institutional character of the cafeteria on the balconied, upper floor. Lighting and handling of space add depth to the concept, providing a variety of three-dimensional possibilities. Wood, stone, and brick—the same natural materials used for the exterior—are treated as important interior design elements for their warmth and textural interest. The commons building provides cafeteria dining for approximately 250 persons on the upper level, with kitchen and lounge areas on the lower. General student facilities include seminar rooms, game rooms, a snack bar, and several cushioned seating pits, popular for quiet conversations or heated bull sessions. TAC partner-in-charge, Norman C. Fletcher; associate-in-charge, Herbert Vise.

Furnishings custom-designed by TAC include coat racks, wall telephone mountings, benches, butcher-board tables, built-in conversation pit seating, dining tables, andirons, wood holder. Other furnishings specified by TAC: dining chairs by Empire State: Hans Wegner high-back chairs from Frederik Lunning; lounge chairs by Design Research and Herman Miller; Swedish rugs.



Photos: Michael J. Novia

Macy's, Rego Park, N.Y. ■ Copeland, Novak & Israel, Interior Architect

The Bird'n Bottle gift shop (left) has been separated from the main selling section by use of free-standing, see-through gondolas, special lighting, and simulated terra cotta brick vinyl flooring. Metal and wood gondolas are lighted from above and below, and are interconnected with beams containing fluorescent lighting. A French circus motif adds gaiety to the cafeteria (above), The Big Top, where the mood is heightened by colorful murals, soft lighting, carpeting, and wood paneling. Plastic laminate table tops were specially designed with tray-shaped recesses.

Gift shop furnishings: Owens Corning acoustic ceiling; Eastern Cabinet fixtures; Kentile flooring; Garcy hardware. Restaurant: Gotham lighting; Karastan carpeting; Tanier chairs; Gilford Leather upholstery; Formica table tops; Chicago Hardware Foundry table bases; Marie Kipp drapery fabric; Mosaic Tile Co. tiles.

Peale Club, Philadelphia, Pa. ■ Harbeson, Hough, Livingston & Larson, Architect/Interior Designer

When the Pennsylvania Academy modernized an old hotel into galleries, a large adjacent residence was turned into a private club for members and was named after artist and early patron, Charles Wilson Peale. The club contains dining, cocktail, and general lounge areas. Interior proportions emphasize height and depth, with the lounge ceiling soaring to 24 feet, generously complementing the large-scale Peale originals. Colors, selected by Herbert Kramer of the firm's interior design department, are subtly elegant yet not in conflict with any of the art. Blue is a dominant tone, blending with gold and olive. The spectacular curved, floating staircase is completely carpeted—on top, underside, and balcony overhang. Furnishings: Dunbar, Knoll, Stendig furniture; Knoll draperies; Larsen, Greeff, Knoll upholstery fabrics; V'Soske carpet; Lightolier lighting; Orrefors table accessories.

Photos: Edmund B. Gilchrist, Jr.

Life Insurance Association of America, New York, N.Y. ■ Duffy, Inc., Space Planner/Interior Designer

One of the most interesting aspects of this project is the broad utilization of textured plaster walls, particularly in the main reception area (top left) where the deep irregular texture, accented by cove lighting, contrasts with white oak, random-plank wood ceiling. The dramatic wall texture was accomplished in a deep bed of plaster with a sponge. All color in the area is concentrated at the seating group, established by the area rug with a gold ground and accented with blue-black, burnt-orange, and white. The deeply cushioned chairs and sofa are covered in an orange plush fabric. A subtle plaster texture is employed in the executive reception room (above left) where troweled sand finished walls are painted off-white, setting off the color scheme of burnt umber with accents of blue and green shades, on the printed velvet sofa fabric, and burnt umber leather covering the Barcelona chairs. Typical of the enormous amount of custom detailing prevalent throughout is the white oak bookcase in the secretarial corridor (upper right), fitted with uprights of aluminum, black anodized on the sides and polished on the front face. Entrance to the president's office is through his secretary's office (left), handsomely detailed with troweled sand plaster walls, recessed crown and base, as well as the oak door jamb design and parquet flooring of Rhodesian Teak. The custom cantilevered cabinet is black lacquer with a green-black marble top. Spacious president's office (above, lower right) is appointed with an oval rosewood conference table-type desk, flanked by three black tufted leather guest chairs and a swivel chair upholstered in royal blue wool fabric. The back cabinet is rosewood, topped with white marble. Project director was Thomas Hilary Mainey.

Suppliers: plaster walls by Allied Plastering Co.; woodwork, custom cabinetry by M. Gerber; furniture by Frank Scerbo, Stendig, General Fireproofing, Knoll, Jens Risom, Lehigh, Harvey Probber; rug by Osakau Harootunian & Sons; carpeting by Bigelow-Sanford; vinyl flooring by Amtico; parquet floor by Haywood-Berk; fabrics by Jack Lenor Larsen, F. Schumacher, Maharam; lighting fixtures by Lighting & Electronics, Kliegl; accessories by K. Mann, J. Roehrs, Wm. Bowie.

Paul Secon, Inc., New York, N.Y. ■
Paul Secon, Interior Designer

For its grand opening a few months ago. the retail showroom, catering to the general public as well as designers and architects, featured a sparkling, imaginative sculpture exhibit of French ceramics, by Raphael Giarruso and Georges Pelletier, in the form of a huge chess board with all appropriate but extravagantly scaled pieces. The initial display served to establish the role of the showroom in the field of contemporary furnishings and designs. Management regards the three-floor, midtown shop not only as a merchandising showcase for furnishings and new products, but also as a center for lectures, informal discussions, and exhibits. Designers will be invited to show their latest creations, and competitions will be run in conjunction with design schools. In addition to furniture and lighting by well-known designers, there are designated areas for informal dinnerware, glassware, stainless steel, wood, toys, accessories, clothing, textiles, and rugs.

Meadow Lakes Retirement Community, Hightstown, N.J. ■ Andrew M. Baird & Associates, Interior Designer

Sponsored by the Presbyterian Homes of the Synod of New Jersey, the non-denominational retirement community is situated on an estate of 103 acres containing lakes, ponds, and some heavily wooded areas. The initial phase of the two-stage program encompasses 220 apartment units in addition to many lounges, main dining room, library, auditorium, as well as a health center of 90 beds. Because the first group of units, ranging from one-room studios to five-room apartments, were quickly occupied, phase II is now under construction and will add 108 units plus supporting public rooms. All construction is contemporary in design, and the entire project is connected by corridors and bridges so that one may roam over the entire area protected from weather and through passages that are heated and air conditioned. The cooperative effort of architect Richard J. Chorlton, landscape architect Richard Cripps, and interior designer Andrew Baird, the community incorporates the best features of similar communities across the country, the result of an extensive research tour by designer Baird. Illustrated are three of the commodious day rooms and lounges, with furniture by Ralph Morse, Founders, Veit Furniture; carpet by Oxford Mills; lamps by Chapman, Marshall Studios; Dow's Rovana fabrics by Huntington Products; accessories by Raymor, Mottahedeh, Fan Co., and Andrew Baird Interiors.

Buffalo & Erie County Public Library, Buffalo, N.Y. ■ Designs for Business, Inc., Space Planner/Interior Designer

The immediate requirements of today and the changing needs of tomorrow were incorporated in this new public library with sufficient flexibility in both architecture and interior spaces to assure its practicality for years to come. To make the plan workable, DFB approached the project with these considerations uppermost: One, working habits and procedures of personnel, the drawbacks of the old facility were instrumental in creating a design with maximum efficiency and economy. Two, the plan had to provide the same modular flexibility of the architecture to enable the library to be enlarged, consolidated, or totally changed in concept to accommodate new methods of information handling and dissemination. To make the facility practical as well as beautiful, DFB used materials that are either entirely maintenance-free or that require minimal care, such as plastics, plastic laminates, natural woods, and natural fibers. Windows, for instance, have vertical blinds, eliminating horizontal surfaces subject to dust accumulation. At the same time, equal consideration was accorded flexibility of furnishings and equipment. Applying the same modular scheme of the architecture, DFB specified furniture designed with a certain amount of standardization, so that components could serve several systems, dependent on changing needs. While this "custom" equipment appears expensive, DFB reports it saved more than $15,000 of the budget earmarked for the purpose.

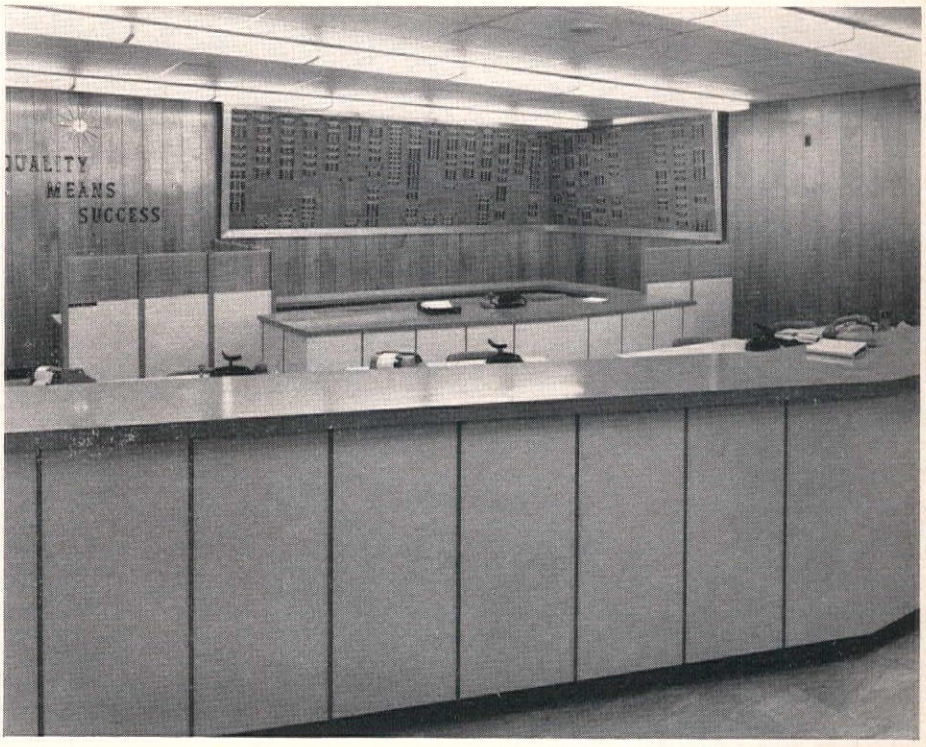
Larry Aldrich Museum, Ridgefield, Conn. ■ Carlus Dyer, Interior Designer

Converting a post-Revolutionary building into a contemporary museum, while retaining the original colonial character, was successfully accomplished by allowing each style to complement rather than detract from each other. The building was recently updated for its current purpose by refinishing the original, antiqued oak flooring and by installing acoustical ceiling tiles throughout. Walls are white, to provide a neutral background for the paintings and sculpture. Accents are created by Lightolier's Lytespan system, flexible enough to offer a range of intensities and a wide choice of beam spread for different displays. The only furniture in the galleries are walnut benches in different sizes, by Glick & Schulke, with black leather upholstery.

Fessenden Hall, Inc., Pennsauken, N.J. ■ Albert & Thomas, Architect/ Interior Designer

When Fessenden Hall moved into its own new building in an industrial park, it made extensive use of the materials it distributes—Formica plastic laminates and wood paneling—and Albert & Thomas, building architect and interior designer, sparked the interiors with strong colors, from bright pumpkin Formica counter tops, to vivid blue acrylic office dividers. The main sales office (photo right) has been set up to display its products and to service its customers with ease and efficiency. Catering to the trade, the showroom, 1,300 square feet with a 12-foot ceiling height, carries Formica samples in 18 by 24 inch sizes and contains a concealed movie screen to illustrate slides of completed jobs to architects and designers. The president's office (lower right), complete with a display of duck decoys, is in effect another showroom, for the firm's products are used extensively. Rosewood paneling lines the walls, a rosewood slab tops the boat-shaped desk, and the photo over the armchairs is mounted on Formica. The strong wood tones are muted in the carpeting, a tight loop in a mixture of tan, brown, and cream.

Suppliers: Robert John office furniture; Alexander Smith carpeting; Peerless Steel sales office desks and chairs.



Photos: R. R. Frame

Hotel Warwick, New York, N.Y. ■ Ellen McCluskey, Interior Designer

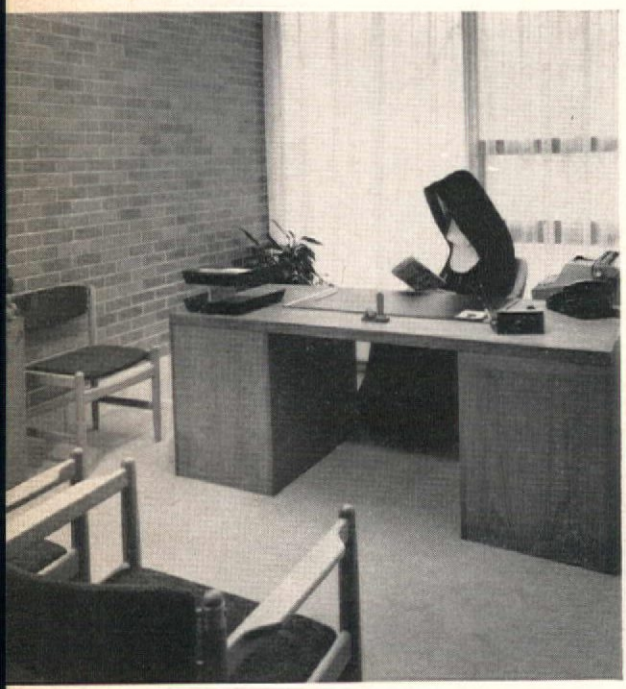
When Loew's Hotels acquired the Warwick, it embarked on an extensive program to update the old hotel. The result has been a thorough renovation, including all guestrooms and corridors, as well as public and function rooms. Two dramatic color schemes were employed for bedrooms, in which the same basic furnishings take on a different appearance (right and above right). One scheme features China Trade, a burnt orange and white toile depicting early trading ships, with walls and carpet in a soft gray and furniture in a warm walnut finish. The second scheme is more formal, with yellow and white damask draperies and bedspreads. Dust ruffle and walls are solid yellows, while lounge chairs are covered in a blue and orange check. Neutral gray carpet and walnut finished furniture complete the decor. Typical suite living room (above) is furnished with rich gold curtains, bordered in a wide brown, gold, and tomato floral strip with matching valances, deep mahogany brown carpeting, pale gold walls, Raleigh rose print lounge chairs, and sofa covered in gold fabric. All woods are walnut finished. Bedroom furnishings: Brunschwig & Fils curtains, bedcoverings; Cohama dust ruffles; Drexel, Wycombe-Meyer furniture; Wayne Weavers, LaFrance upholstery; Abbey, Wilmar lamps; Bigelow carpeting; Karl Mann paintings. Living room: Clarence Veit, Drexel, Chairmasters, Wycombe-Meyer, Medallion furniture; Cohama, Brunschwig upholstery; Abbey lamps; Greene Bros. sconces; Mann paintings.

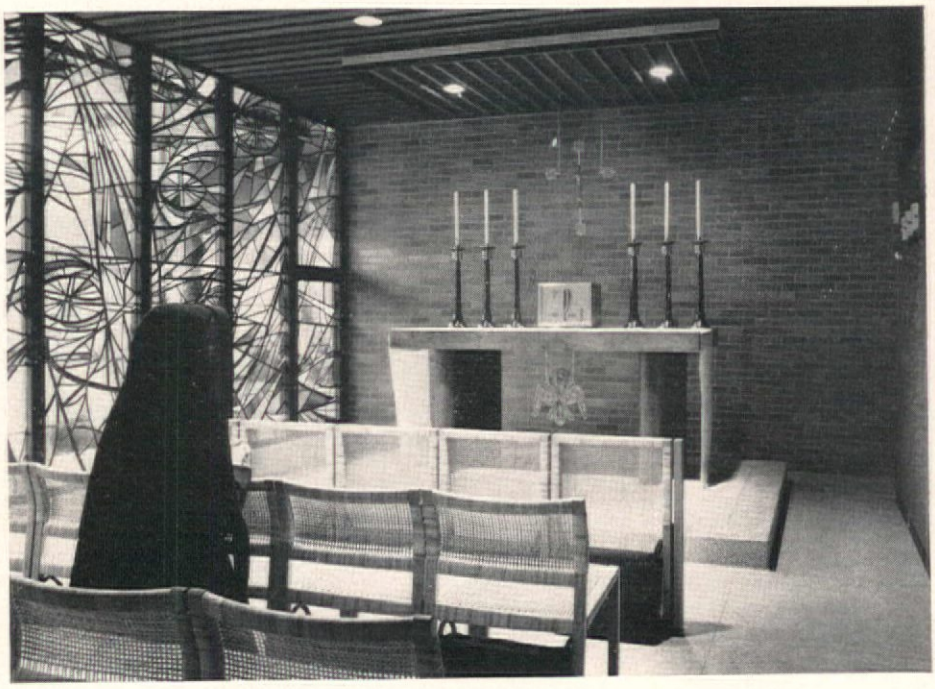
Photos: Henry S. Fullerton

Hooker Chemical Corp., New York, N.Y. ■ Saphier, Lerner, Schindler, Inc., Space Planner/Interior Designer

A stark, contemporary setting, softened by antique pieces in executive offices, characterizes the interiors of Hooker Chemical Co. With an enormous amount of custom detailing and lavish use of rosewood and travertine marble paneling, SLS has created an efficient, functional, and handsome setting in one of New York's newest high-rise office buildings. Waiting area of the reception room (top left) is defined by a dropped ceiling, while the smoke-glass panels form an extension of the corridor wall without closing it in completely. The custom-designed desk repeats the paneling of rosewood and marble. An executive office (center left) has three clearly defined areas, with the conference section set off by a dropped ceiling and drapery panels. Antique oriental tables in another office (bottom left) give added design interest to the contemporary decor. For function and beauty, a handsome storage wall (below) divides secretarial work stations and acts as foyer to executive offices located on the perimeter of the building.

Suppliers: Furniture by Columbia, Avard, Roffman, Risom, Dunbar, Metwood, I. V. Chair, Cumberland, Brickel Eppinger, Richard Draper, Lehigh; fabrics by Boris Kroll, Ben Rose, Jack Lenor Larsen, Rondo Antel; draperies and carpets by American Drapery & Carpet.





Photos: Cortland V. D. Hubbard

Gwynedd Mercy College, Gwynedd, Pa. ■ Nolen & Swinburne, Architect/ Interior Designer

In a continuing project for Gwynedd Mercy, an all-girl, 4-year Catholic college, Nolen & Swinburne has designed three classroom buildings, an administration building, and a student union and dormitory, with a new library currently in the works. Interiors, planned under the direction of Elizabeth Frazer, head of the architectural firm's interior design department, are in keeping with the straight, simple lines of the buildings. The overall scheme includes gray glass windows, light oak furniture, and blue, a favorite color of the sisters, for upholstery. Walls are mostly off-white, with yellow in some areas. A full-width stained glass wall adds drama to the chapel (above right), and natural red brick wall and walnut ceiling emphasize the light oak and cane chairs. Kneelers, which hook on to the backs of the chairs, are padded and upholstered in a vibrant blue, heavy textured fabric. Two offices, for a department head (right) and the treasurer (above), are handled in a restrained manner, a characteristic of both architecture and other interior spaces. Suppliers for chapel: Rickberg furniture; Knoll fabrics; Charles Madden stained glass. For offices: Rickberg, Art Metal furniture; Knoll upholstery fabrics; Design Tex drapery fabrics; V'Soske carpeting; William A Kootz shelving and custom woodwork.

When it comes to decorative accessories for contract use... Syroco wrote the book!

And here it is.

The world's most complete catalog of the world's most complete decorative accessories line.

When you're buying or selling contract furnishings, you have a simple option.

You can wade through a foot-high pile of assorted accessory catalogs. One for mirrors. One for wall clocks. One for panels and another for plaques.

You might find what you want eventually. If you have the patience. And if you go for the extra bookkeeping spreading your orders all over the lot is bound to entail.

Or you can pick up your comprehensive Syroco catalog... and find what you want in a jiffy. With full confidence in our 75-year reputation for quality. At the price you want to pay.

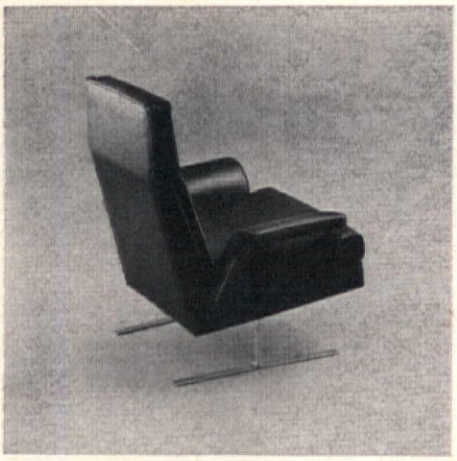
The next time you think of accessories, reach for your Syroco catalog.

Write on company stationery and we'll send you one gratis.

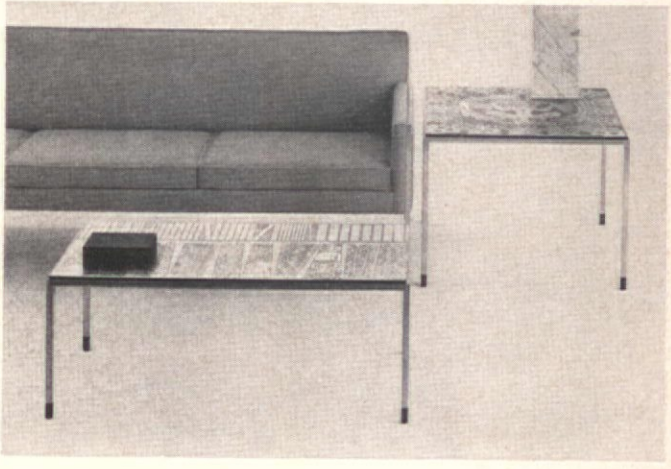
You'll find it the most compelling best-seller you ever read.

No plot. But what a cast of characters!

Syroco, Inc. • Contract Division • Syracuse 1, N.Y.



1963 A.I.D. INTERNATIONAL DESIGN AWARD WINNER



The quality of being Metropolitan

Elegantly clothed in a rich leather, a princely velvet, or another fine fabric from our reserves, a Metropolitan sofa or chair gently accents those qualities that invest it with enduring value. Reflected in styles of timeless grace are the concurrent flows of modern creative expression and a reverence for the classics. Revealed in details of tailoring, construction, and welting are those distinctive signs of craftsmanship and care that insure years of smart-appearing, mint-condition service.

The quality of being Metropolitan is articulated in excellent design, firm construction, and the use of superior materials. These themes are woven consistently through the myriads of handsome sofas, chairs, sectionals, and tables shown in the new Metropolitan Furniture catalog for 1966, available now on receipt of your letterhead request.

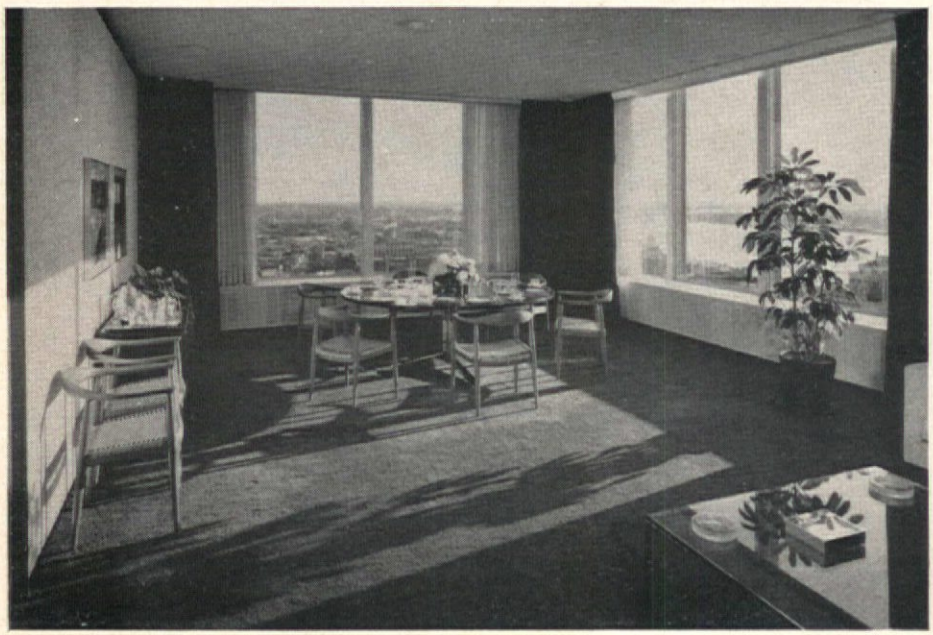
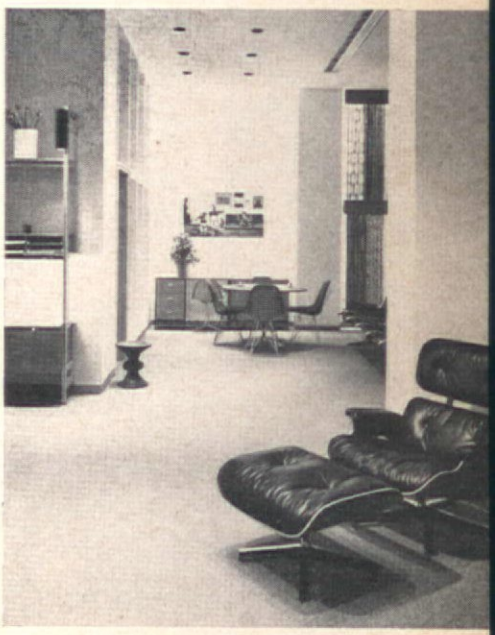
Private Dining Rooms, First National Bank of Memphis, Tenn. ■ I.S.D., Inc., Interior Designer

A number of private dining rooms, as well as a lounge and a gallery, are located on the 23rd floor of a new 25-story office building, headquarters for the bank, which is currently occupying the first nine floors for its business operation. Largest of the dining rooms, all airy and tastefully designed, is the officers dining (left), accommodating about 70 persons. Cinnamon-colored carpeting contrasts with pale green silk draperies over white wool casements. Tables and serving stations are rich burl walnut and steel, with creme colored Vermont marble topping the service stations. All dining chairs—Hans Wegner's Classic Chair—are handcrafted in oak and have black oxhide seats. The chairman's dining room (below left) has one wall paneled in walnut. Table and credenza are custom designs in burl walnut and Tennessee imperial black marble. The chairs here, and in a private room (below), have open cane seats.

Furnishings: Carpet by Bigelow-Sanford. Draperies by Kravet, Thaibok. Chairs by Frederik Lunning. Table appointments by Meyer China Co., International Silver Co.

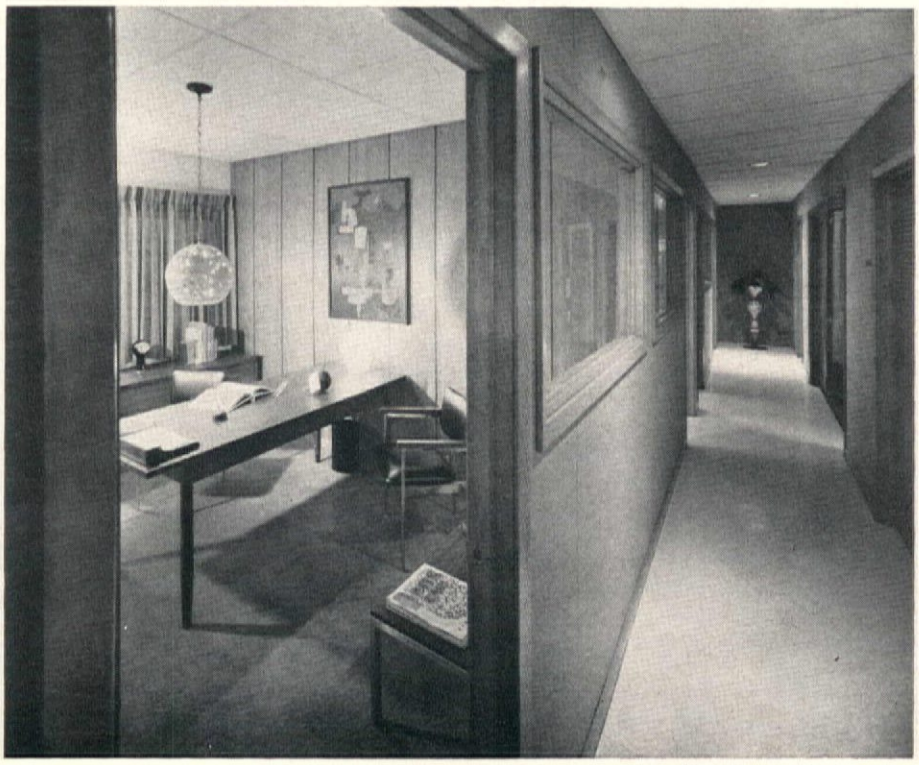


Photos: Alexandre Georges



Herman Miller Showroom, Washington, D.C. ■ George Nelson & Co., Interior Designer

A handsome setting for the contemporary furniture and fabric lines of Herman Miller functionally embodies stipulations set forth by the client—that the showroom by highly flexible, show as many pieces as possible, include a private office for the manager, incorporate an audio-visual set-up to show furniture installations to customers, and provide adequate storage rooms. Miller's Comprehensive Storage System components were employed to expose its many possible variations and to double as exhibit cases for furniture and decorative objects (right top and center photos). Each bay is illuminated with a fluorescent strip, part of the system. The Catenary furniture group (above) is set before a photo and fabric panel clipped to half-track CSS installed on the wall. The photos illustrate the Miller factory exterior and interior; fabric panel demonstrates Miller's "soft wall" and aids acoustics. The manager's office (left of photo at right) has one wall of glass, which can be curtained for privacy.



Photos: Frank Lotz Miller

New Orleans Design Center, New Orleans, La. ■ Nahan Co., Inc., Interior Designer

An elaborate restoration and design program has turned a 100-year old building, fallen into disuse after years as a warehouse, into a charming and efficient interior design workshop, serving a wide community of designers with more than 40,000 square feet of space. The three floors of the brick structure include all facilities for the design staff, with planning rooms, conference rooms, endless rows of furnishing display areas, an art gallery, and the Carriageway Shoppe for accessory lines. Nahan Co., responsible for the transformation and which shares the building with the center, retained as much of the original architectural features as was possible, including the triple balustered staircase (above right) in the entrance foyer.

Florida Yacht Club, Jacksonville, Fla. ■ Henry End Associates, Interior Designer

Redesigning this older building within a limited budget presented special problems, although the existing architectural features provided the designer with a sound foundation. The club, founded in 1848 on the banks of the St. John River and surrounded by oak trees, now reflects some of the local color and Spanish history in its design. The original beams of the lounge (left) and ballroom (below left) were restored to their original dark wood, and special architectural lighting was installed to heighten the old Spanish mood. A new dining room was added on top of the existing building, and the old room was transformed into the Captain's walk (below), an airy, light room for informal dining and entertaining. A Spanish feeling in the design of the aluminum furniture and lighting fixtures thematically ties in the room with the rest of the club. Project designer was Leroy E. Seitz.

Furnishing credits for the lounge: Contract Carpet Co.; Charles Bloom, Paul Kaiser fabrics; World Wide Design, Flash Cabinet, William Brenner, Drexel furniture; Phyllis Morris lamps; L. S. Knight, W. S. Croom accessories; Shirley Tattersfield art panels. For the ballroom: Drexel chairs; Kaiser fabrics; New Metal Crafts lighting; L. S. Knight accessories. For Captain's Walk: Scroll chairs; Kaiser fabrics; New Metal lighting; Kentile vinyl flooring.

Detroit Bank & Trust Co., Detroit, Mich. ■ Ford & Earl Design Associates, Space Planner/Interior Designer

A floating spiral staircase, set right in the middle of the main banking floor and leading down to safety deposit vaults, dramatizes the remodeling of the Detroit Bank & Trust Co. space that formerly housed its trust department, now located in the company's adjacent new 26-story structure. Designed by Ford & Earl, the fully carpeted stairwell has a baluster of stainless steel and solid, shaped teak handrail. On the lower floor, it is highlighted by a backdrop of foil wallpaper behind the landing. The equally dramatic main floor is canopied with an enormous plastic and metal louvered ceiling, with a total of 90,000 projections. The scale of the ceiling can be gauged by the staggering one and one-half miles of fluorescent lamps necessary to illuminate the space with a striking pattern of texture and color. Included in the renovated portion of the bank is a display-exhibition area that can be quickly converted into a public lounge. Display panels and cases are mounted on tubular aluminum frames set into floor sockets, allowing a wide array of display configurations. As part of its commission, Ford & Earl was also responsible for much of the space planning and interior design for the adjacent, new 26-story building, including the commercial loan department on the first floor. The area is completely surrounded by 21-foot glass walls and contains a unique "half-story" row of five offices. The office row is free-standing and "floats" three feet within the building's structural side and end walls. An egg-crate beamed ceiling was installed above the offices to admit light from fixtures on the higher structural ceiling, while giving the illusion of normal ceiling height.

The main banking area walls are white polished marble; floor is travertine. Teller cages are of teak and precast terrazzo. Suppliers for furnishings include: Boss Co. stair carpeting and area rugs. Archibald Holmes, loan department carpeting. Winfield paper foil in stairwell. Stow & Davis desks. Lehigh chairs. Harvey Probber chairs and sofas. Isabel Scott draperies.

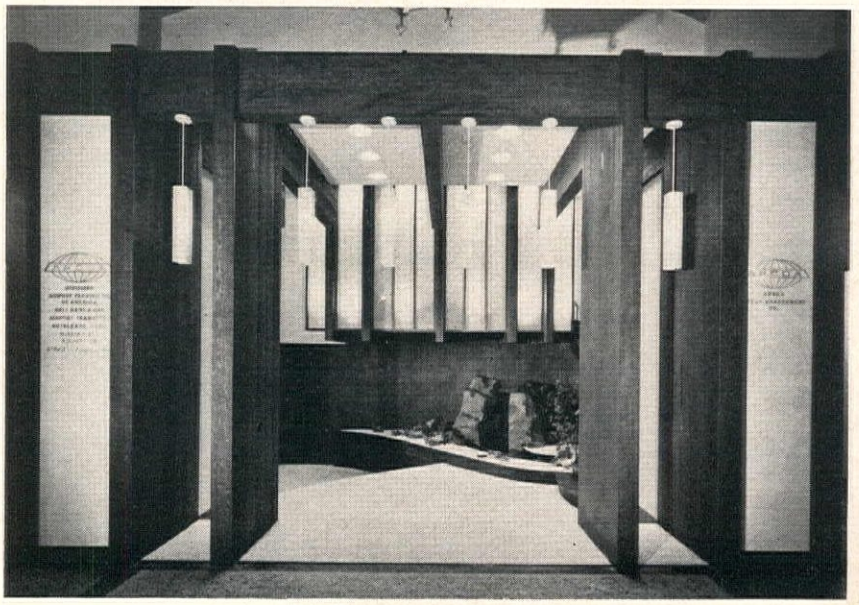
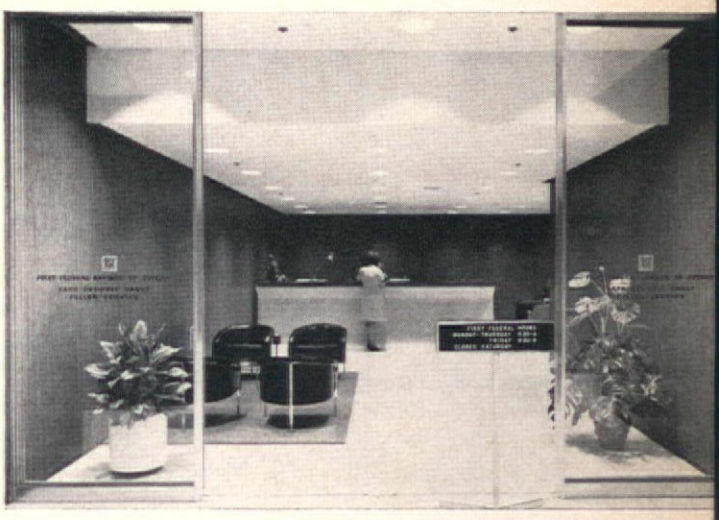
Airport Parking Co. of America, Cleveland, Ohio ■ Leon Gordon Miller & Associates, Inc., Space Planner/Interior Designer

Converting a 60-year-old structure to include 30,000 square feet of office space involved obvious problems, yet afforded wide latitude in spatial disposition. By suspending a balcony from the trusses, the 45-foot height from floor to roof was transformed into a deep well, with executive offices assigned to the balcony and general offices at ground level. Lighting from the upper ceiling was engineered to provide a low level lighting for balcony areas, while a 100-footcandle level is maintained on the desktops below. The entire space is carpeted in blue, blue-green, and blue-violet, with the same colors repeated in the rails. Access to the offices is through a specially designed oak-beamed entrance (below right) leading to the lobby with a rock fountain and rock garden backed by a custom-tile installation. The reception/waiting room (above center) is comfortably furnished with a seating arrangement of upholstered sofa and chairs. Walls alternate oiled walnut paneling and foil wallcoverings. In the president's office (above), lighting was imaginatively handled by lodging fixtures into the open plenum space between beams, thereby assuring adequate illumination for the desk area, small conference grouping, and lounge.

General office furniture was supplied by General Fireproofing and Sturgis; hanging pendants by Design Technics. Entrance—Heath Ceramics; Habitat light fixtures; Amtico pebble vinyl. President's office—custom desk and cabinetry; other furniture by Dunbar, Taylor, Rixom, Dux, Campbell; lamps by Design Technics. Reception/waiting room—Thonet and S. J. Campbell furniture; Design Technics and Metropolitan lighting; Kneedler-Fauchere wallcovering foil.





First Federal Savings & Loan Association, Detroit, Mich. ■ Smith, Hinchman & Grylls Associates, Inc., Architect/Engineer/Planner

This boldly conceived building emerges as a strong statement in the masterful integration of exterior and interior architecture and design. Luxury in space and function, elaborate custom detailing, and grandiose use of structural materials are solidly combined in the broadly scaled composition by Smith, Hinchman & Grylls, architect-engineer for the building. The firm's interior design department supplemented the architectural design with furnishings (most custom designs) that speak for themselves without detracting from the over-all scheme. The main banking area floor (above left) is a wide expanse of light, pink-hued Rosa Aurora marble from Portugal, accented by a bright red island carpet by TaiPing. The most outstanding of the special designs are teller counter, check desks, and guard station that are topped with the same dark pearl granite surfacing the building's facade. Other special designs are rosewood and ebonized birch desk and natural leather chairs fabricated by Paul Gordon Inc. and the decorative plastic and aluminum ceiling by Custom Ceilings. In the photo left, the powerful connecting link between the twin towers continues to integrate the marble and granite. The detailing of the information counter repeats the scheme of the main banking area. Stairs in this area lead to the safe deposit vault on the lower level, which also maintains continuity of design, although many of the same details appear in different materials. Here (photo above) the floor and counter front are terrazzo; the counter is topped with dark pearl granite. Red carpeting is by Lees; special chairs in black leather by Paul Gordon; plastic laminate walls by Textolite. All banks signs were custom designed.

Naegele Advertising Companies, Inc., Minneapolis, Minn. ■ Judith Goodnow, Heaton, Inc., Interior Designer

The elegant traditional style of Colonial Williamsburg goes west to Minneapolis, where it becomes the decorative and architectural symbol of this advertising agency, in the hope that it will reflect Naegele's philosophy of "traditionally high standards" in quality and service. Visitors enter the two-story, Georgian facade building through a spacious entry foyer, with a deeply carpeted circular stairway, special wall tapestries, and an elegant chandelier. Located on the second floor, the office of the president (upper left) is thematically furnished around the desk, an exact copy of one used by George Washington during his administration. On each side of the fireplace are authentic reproductions of Queen Anne wing chairs, upholstered in a fabric woven in India with yarns colored in vegetable dyes. The muted color scheme includes a soft-grayed tone of blue-green in the carved border rug, in the leather sofa, in the silk damask draperies, and in the painted paneled walls. The crewel fabric on the two wing chairs and desk chairs is turquoise on a cream ground. The executive dining room (lower right) is purposely rather small, adequately accommodating only two tables of six to assure a relaxed, intimate atmosphere. The same muted color scheme is repeated, contrasting with the dark, heavily distressed mahogany furniture. Tables and chairs as well as the silver setting are reproductions of the Queen Anne period; Chippendale chest is an antique.

Furnishings notes: all furniture reproductions from Kittinger's Colonial Williamsburg collection; brass-top table in president's office by Baker; wing and desk chair fabrics by Stroheim & Romann; leather upholstery by Middleton; lounge chair upholstery by Payne; carpeting and rugs by Bigelow; parquet floor by Wood Mosaic; sconces by Dinkelspiel and Chapman; dining room wallpaper by Van Luit; draperies by Jack Valentine, with Scalamandre fringe.

City National Bank, Columbus, Ohio ■ Findley Interiors, Interior Designer

Furnishings that hint at the traditional, yet blend into the contemporary scheme, produce a dignified and congenial ambience in this bank. The main banking area (two views, right and below) is structurally defined by the specially designed dropped ceiling over the teller counters. The rest of the space stretches seventeen feet high, affording enormous window walls curtained in a light natural white Rovana Verel linen casement with overdraperies in red on natural, printed linen damask. The entire floor is carpeted in a natural colored tweed complementing the teakwood surfacing of check-writing desks, teller counters, plus columns and planters. Reception area settees add color and texture, with red leather upholstery on settees and a black and natural diamond patterned fabric on lounge chairs. Also situated on the main floor is the new accounts and loan department (top photo), containing neatly aligned rows of desks and chairs on red carpeting. On the second floor is the trust department (bottom right), in mellow fruitwood and cool avocado green and aqua. Designers in charge of the project were E. Gordon Findley and Douglas B. Kohler.

Furnishings notes: Roxbury carpeting; Directional lounge chairs, armchairs; Crsenigo settees; Dunbar tables; Stow & Davis desks; John Langenbacher check-writing desks, paneling, planters; Kent-Bragaline draperies; Hexter casements; McDonald desk accessories; Lackawanna Leather upholstery; Art Metal files.

Mid-America Club, Chicago, Ill. ■ Maria Bergson Associates, Interior Designer

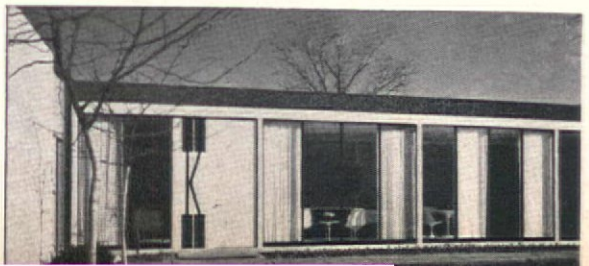
That restaurants have the highest mortality rate among retail operations probably accounts for the too-often gimmicky and gaudy decors that restaurateurs resort to in desperate attempts to boost business. As a result, it is refreshing to illustrate here the Mid-America Club and to credit Maria Bergson Associates for the restrained handling of this elegant interior, which has the added advantage of an aerie perch atop one of Chicago's newest skyscrapers. The space has been thoughtfully apportioned—rows of tables along the window walls, and a raised center area to break the expanse and to provide diners with better views, with part of it devoted to a cocktail lounge furnished in intimate conversational groupings. The main waiting lobby (top) focuses on an enormous, custom-designed lighting fixture composed of a cascade of small, thin hanging prisms in varying lengths that refract the light in a playful manner.

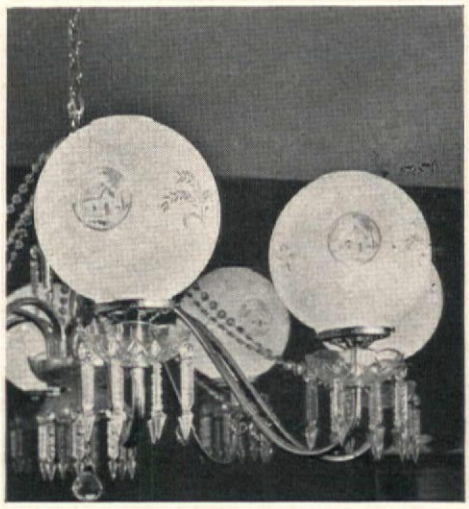
Among the furnishings specified: dining tables by Reischman; dining chairs by J. G. and Meals; sofas by Meals; marble tables by Dunbar; end tables by Lehigh; captain's chairs by Brower.

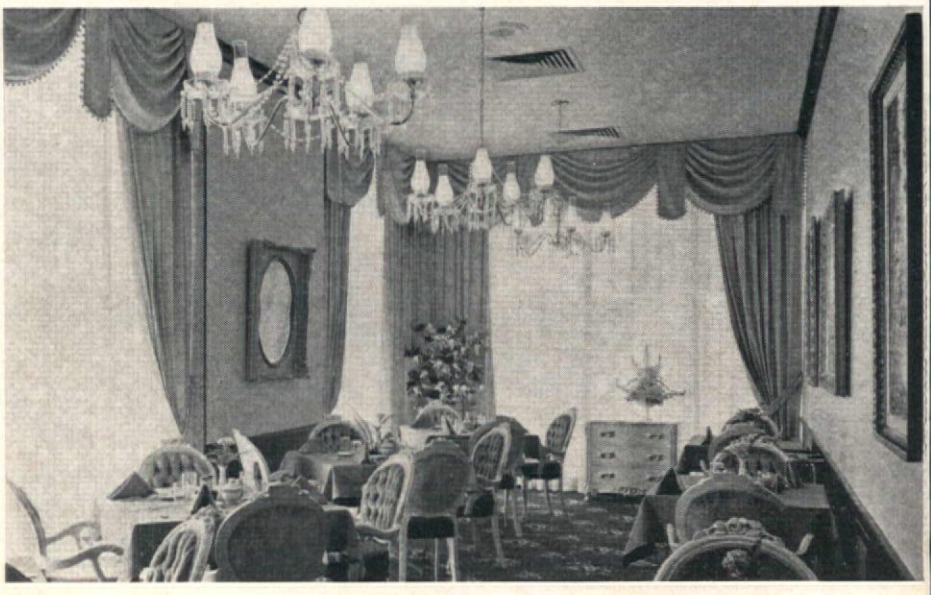
Knoll Associates Showroom, Birmingham, Mich. ■ Knoll Planning Unit, Interior Designer

Occupying its own new building, designed by the late Joseph Dworski, AIA, the Birmingham showroom of Knoll Associates is similar in many respects to its sister showrooms in other cities. In fact, the firm's big K logo dominates the exterior, immediately identifying the building. The showroom is built around a courtyard where outdoor furniture can be seen in an informal setting. The interior spaces are defined by partitions and screens of several materials. One wall, for example, is of rosewood sliding panels, and another is a "fabric wall" display of Knoll textiles. In room-size groups for offices and homes are furniture lines by Mies van der Rohe, Corbusier, Isamu Noguchi, Charles Pollack, Vincent Cafiero, Richard Schultz, Lew Butler, Eero Saarinen, Harry Bertoia, and of course, Florence Knoll. Office and design space for the showroom and the planning service are to the rear of the showroom, which serves architects, designers, decorators, and commercial clients in the Michigan and western Ohio marketing areas. Throughout the showroom, floors are of precast concrete tiles 18 inches square, polished to a matte finish.

Photos: Alexandre Georges







Monte's Restaurant, Indianapolis, Ind. ■ Bob Markland, Interior Designer

The Victorian theme adapted for Monte's restaurant in Riley Center, part of Alcoa's redevelopment program in Indianapolis, is supposed to reflect the times of James Whitcomb Riley, after whom the apartment complex was named. The color scheme throughout is bold, immediately evident in the lobby (above) with a strong red suede and red nylon flocked wallcovering, red carpeting with white, blue, and purple roses, black patent leather round settee, and purple nylon velvet sofa. A centrally placed banquette in the main dining room (right) repeats the purple nylon velvet, and mahogany framed dining chairs are covered in red velvet nylon. The Gold Room (lower right) takes its name from the predominant tones—gold antique velvet overdraperies, gold tablecloths, gold paint above the dado line. Lighting fixtures are special designs after the originals in the Riley home. The originals were first photographed, and from them designs were created, incorporating enlargements or modifications to meet specifications. In top center photo, a detail of the chandelier in the lobby is typical of the glass etching incorporated in the many custom designs.

Suppliers: custom-designed lighting fixtures by Excel. Victory Seating banquette, round settee. Victorian Furniture lamp tables, sofa, dining chairs. Chicago Hardware Foundry dining tables. Gilford vinyl wallcoverings. Fabulous Flocks wallcovering. Mohawk carpeting. Beauti-Vue crystal bead divider. Decorative Mills drapery fabrics. Art Textile tablecloths.

Dr. Andrew Haas Dental Clinic, Cuyahoga Falls, Ohio ■ H. D. Stubsjoen, Architect/Designer

Dental offices, usually drab, have some of the pain extracted in this new clinic, housed in a glass-walled contemporary building designed by architect H. D. Stubsjoen. The waiting room is furnished with an aluminum and Naugahyde tandem seating unit designed by Charles Eames. Along the glass wall are cushioned, steel-frame bench units, designed by George Nelson. Looking back into one of the consultation rooms one can see a comprehensive wall-hanging storage system, integrally incorporating desk top and pedestal. All furniture is from Herman Miller.

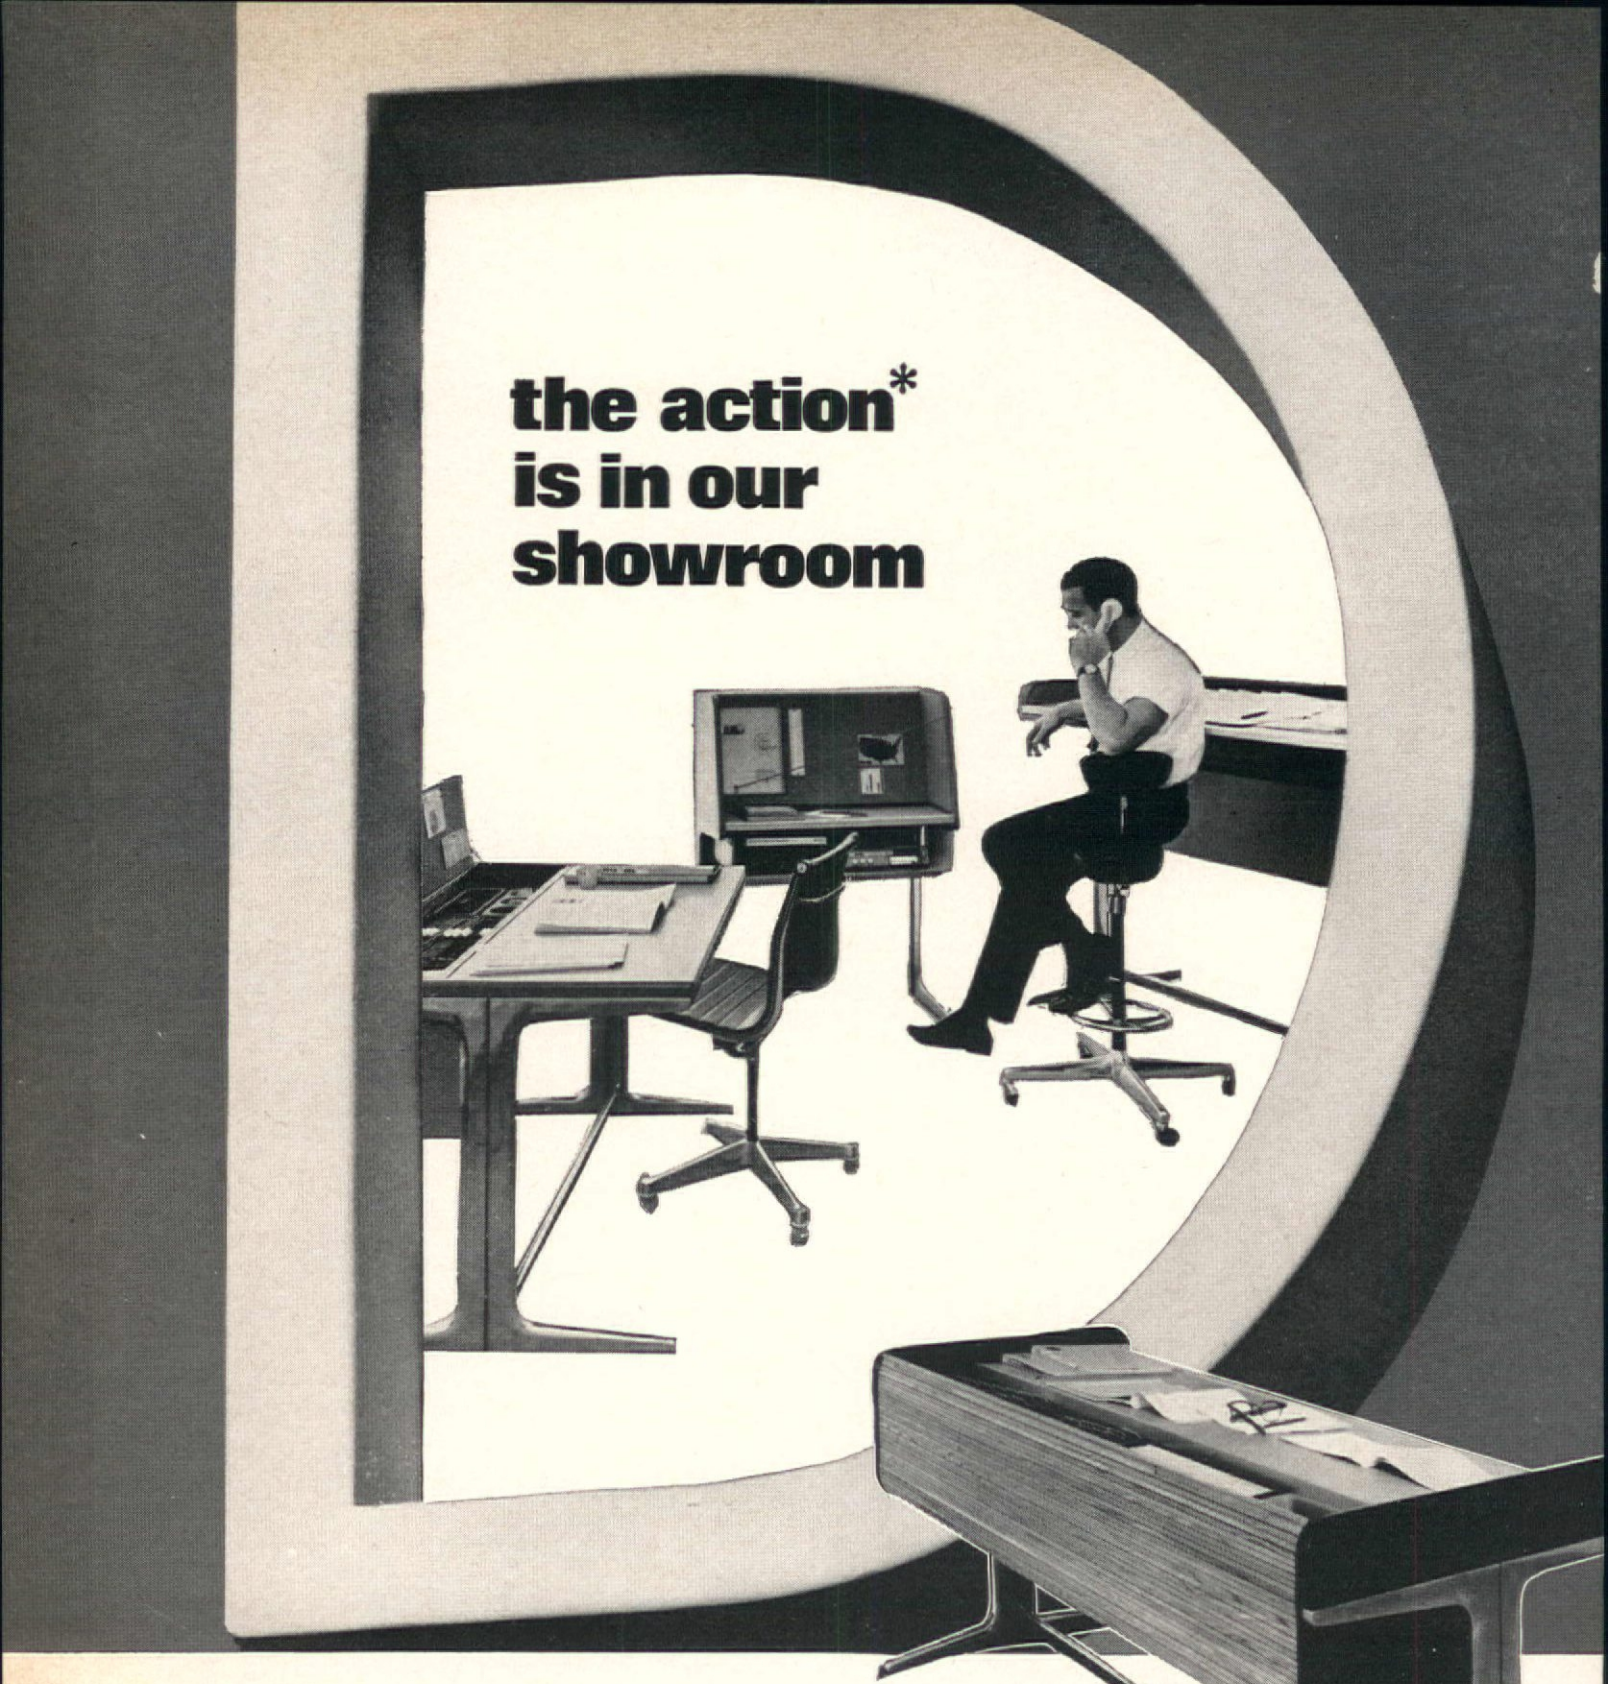
Photo: Kazik Pa-ov-ki

Golden Tee Billiard Lounge, Cincinnati, Ohio ■ Mary Louise Schum, Interior Designer

Mary Louise Schum gives the pool parlor a new look at the Golden Tee Billiard Lounge. Striving for a "gay, contemporary" atmosphere, the designer installed Nessen hanging lamps to create pools of light over the tables. Monarch's Colorset process nylon carpeting was selected for its colorful pattern, long-wearing qualities, and inherent acoustical properties. Predominantly gold, the carpeting establishes the color scheme. Soft gold is also used for the Wallclad vinyl wallcoverings, Cohama dacron draperies, and even for the felt table tops. In contrast, Burke stools have molded fiber glass seats in blue.

James Seeman Studios Showroom, Merchandise Mart, Chicago, Ill. ■ Heino Orro, Interior Designer

The divisions of James Seeman Studios—Murals & Wallcoverings Inc. and Arts for Architecture—display varying products in imaginative coordination with one another. This section amply demonstrates the scope and variety of wallcoverings. On the left wall, a scenic is focal point for a seating group, with another mural partially extended on a pull-out wing. A full complement of wallcoverings is displayed on wings to the right, while one of the firm's sculptural pierced walls is at the back wall. Carpeting was supplied by Maxwell Co.; furniture by Helikon.



Once again **Desks Inc.** presents a new concept in office furniture... the revolutionary **ACTION* Office by Herman Miller.** The sleek and uniquely functional design solves the need for greater mobility in today's modern office. Action Office helps "men of action" to function quickly and efficiently in a totally new kind of working environment. If your clients like to work standing up, sitting down, straddling or perching, you'll want to see this office furniture — the ultimate expression of Herman Miller practical elegance and long-term usefulness. Call AL 5-5454 or come in and see Action office at our showroom **71 Fifth Ave. (cor. 15th St., N.Y.C.)**

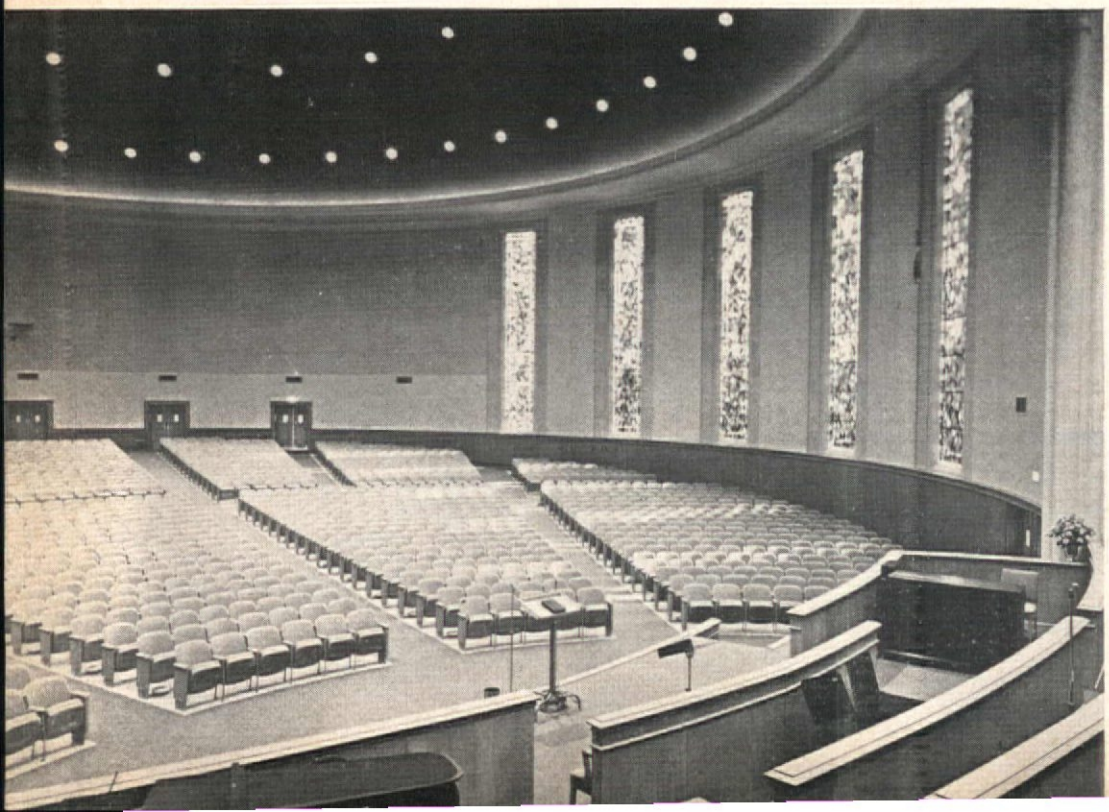
CONTRACT SOUTHWEST

- BANK
- CHURCH AUDITORIUM
- DINING ROOM & COCKTAIL LOUNGE

Pioneer Bank, Phoenix, Ariz. ■ Russell McCaleb, Interior Designer

Earthtones customarily associated with the southwest landscape—dull bronze gold and terra cotta—are reflected in the interiors of the Pioneer Bank. The building itself, designed by architect Wence Sarmiento of Bank Building Corp., defies regional comparisons, with a preponderance of eliptical forms in the basic architectural concept. The huge expanse of this area is broken up by a curved metal railing, lined on both sides with rows of Folke Ohlsson-designed lounge chairs. Desks in the enclosed area are custom designs, fabricated in walnut by a local shop. Executive swivel chairs, also in walnut, are by J. G.; side chairs, as well as the lounge chairs, are from Dux. Carpeting, in bronze gold, is by Bigelow.

Photo: Markow Photography



Auditorium, First Baptist Church, Fort Worth, Tex. ■ Easterwood & Easterwood, Architect/Designer

A gigantic circular structure, the auditorium building of the church contains enough seating to accommodate 3,000 persons and a choir loft for 125 members. Acoustically engineered for proper sound control, its blue-painted domed ceiling contains 86 recessed fixtures, supplemented with cove lighting around the plaster cornice. Walls are white, broken with five large, 30-foot high, 5-foot wide stained glass windows. The auditorium, measuring 150 feet in diameter, is fully carpeted with Densylon, a high-density Caprolan nylon by Commercial Carpet Corp. Seating, upholstered in a muted red shade similar to the carpeting, is by American Seating. Natural brown ash wood is used to panel choir loft sections and the lower portion of the circular walls.

Ramada Inn, Houston, Tex. ■ Finger Contract Supply Co., Contract Furnisher/Designer

One of several dining rooms in the Ramada Inn, the Cameo Room (right) was designed with a promenade motif. The total effect is enhanced by glazed mirrored walls, crystal candelabra and huge chandelier, beamed ceiling, and carved antique ivory columns. Tables at the left line a long window wall, separated by a row of plantings. Predominant colors are ivory and gold with fern green and deep apricot. A little bit of the French Quarter in New Orleans is reflected in the Allé Orleans cocktail lounge (lower right and below). Marble topped tables, smoked mirrors, and richly carved carriage entrances, plus a panoramic view of the Mississippi River at one end set the mood. Dimly lit, the room is done in reds, lavenders, and black, with glowing candle lights and dark woods, iron railings, and old carved columns.

Furnishings include Bigelow carpeting; Shelby Williams chairs and bar stools; Erbun draperies; Dwoskin wallcoverings and scenics; Quartite wall sconces; Adams vinyl upholstery. In the Cameo Room, candelabra is from Florentine Imports; chandelier by A. W. Pistol. Hanging ceiling fixtures in Allé Orleans are by Spanish Trading Center.

- BROKERAGE

The Little Corporal, Santa Monica, Calif. ■ Integrated Design Associates, Inc., Interior Designer

The image of the quick-service coffee shop has been updated in the Little Corporal, planned and designed throughout including food facilities, by Integrated Design Associates. Within the well of the special ceiling that structurally defines the counter is an imported crystal chandelier, focusing upon a center island display. Full-size seating units, comfortably padded and upholstered, are cantilevered from the counter base. Wood paneling and indoor greenery complete the setting. The fully carpeted dining room area (lower right) is treated with a Napoleonic motif, from which the restaurant derives its name. Red felt wallcoverings, an aid to the room's acoustics, serve as settings for copies of Napoleonic paintings. The ceiling is elaborately treated, with a striped canopy on a pipe system creating a tent-like atmosphere. The drum-shaped lighting fixtures further depict the theme.

Furnishings suppliers include: counters by Rehco Corp.; booths and counter stools by L&B Mfg.; draperies by Heidi Drapery Co.; chandelier by New Metal Crafts; special lighting by Strickley & Co.; standard lighting fixtures and wood paneling by Pozzo Construction; planters by Architectural Pottery, with artificial greenery from Geller Originals.

Photos: Marvin Silver

Beverly Hillcrest Hotel, Beverly Hills, Calif. ■ Albert Parvin & Co., Contract Furnisher/Interior Designer

The only righ-rise in the vicinity, the New Beverly Hillcrest dominates the landscape with its architectural motif of lotus-shaped arches on the top 14th floor and a facade of white accented with blue and gold. Typical of the basic design approach for all 150 guestrooms, each with its own balcony, twin bedroom suite (right) is color coordinated in a palette of olive, green, and light blue, with dabs of navy blue and white. Most larger guestrooms include a bar alcove (lower right), furnished to resemble an outdoor patio. Beveled-edge mirror walls in elevator lobby (above) and main lobby (above right) decoratively enlarge both spaces, handsomely enriched with dark wood finishes, velvet upholstered antique chairs and sofa, and deep rust, red, and orange carpeting in special designs by Parvin. Architect for the building was Kite & Overpeck Associates; Parvin, with design director Harry McCague in charge, designed and furnished all interior spaces —public areas and guestrooms alike. An affiliate Parvin firm, Dohrmann Co. was responsible for all kitchens and underbars.

Guestroom suppliers: Philadelphia Carpet Co.; Cohama fabrics for custom-designed draperies; Vista Furniture case pieces, designed by Parvin with Parkwood and Formica surfaces; Columbus Coated wallcoverings; Moore of Bedford upholstered pieces; Quartite Creative lamps; Hickory desk chair; El Rey headboards. Bar alcove: Kentile flooring; Woodard chairs and table; Continental Furniture pedestable table; Carr Lighting wall fixture. Lobbies: Cabin Crafts carpeting; furniture by Crest Custom Upholstery, Meyer-Gunther-Martini, Antiques Ltd.; Phyllis Morris floor lamps; Hollywood Lighting fixtures; General Fixture wall paneling.

Photos: Harold Davis

Creative Management Associates, Los Angeles, Calif. ■ William Tishman, Inc., Interior Designer

Within the terms of client preference for fine furniture intermingled with antiques, Frank Austin and Bill Lane of William Tishman, Inc., have created an elegant yet functional suite of offices, consisting of reception room, six executive offices, conference room, and general secretarial area. Warm earth tones and natural fruitwood finishes establish a relaxing and inviting atmosphere in the reception room (above right), setting the tone for the private offices. Keeping within the basic design concept, yet displaying distinctive characteristics, each office blends contemporary simplicity with antiques. All private offices are keyed around custom-designed area rugs. With the exception of one office (above), the same rug pattern was used, differing, however, in a special set of colors for each.

Furnishings notes: All custom rugs by Edward Fields, Inc.; pre-finished parquet flooring, in antique walnut color, by Elliot Fields, Inc. In reception room, stripped wallpaper is by Scalamandre; antique walnut commode by Mount Airy; Louis XV armchair in bronze green by Yale Burge; slate and terra cotta sofa fabric by Boris Kroll. Private offices: Scalamandre wallpaper; Directional chairs; Henry Calvin drapery fabrics; tortoise shell desk custom-designed by William Tishman, Inc.; pull-up chair by Stan Taylor Imports; lamp by Lang & Williams.

Photos: Alexandre Georges

Edgewater Marina Lodge, Long Beach, Calif. ■ Maxwell Co., Contract Furnisher/Interior Designer

Located just off the Pacific Coast Highway and the largest facility of its kind in the area, Edgewater Marina Lodge provides holiday-bound guests and conventioneers with 200 spacious guestrooms and a variety of public rooms in which to wine, dine, and be entertained. Among the guestrooms are 20 special suites complete with fireplaces, two super deluxe suites, plus a number of comfortable smaller units suitable for overnight stops as well as extended visits. With complete convention banquets and entertaining facilities, the Lodge includes public rooms designed around several Old World themes, such as the Parisian Dining Room with a French Provincial motif.

Guestroom furnishings include: Hideabed sofas by Simmons; sofas by Gilliam Furniture; tables by Custom Art and Beautycraft; chairs by Modern Upholstered and Hibriten; carpeting by Mohawk; draperies by Desley Fabrics and Lee Harris; stools by Thinline; fixtures by Lighting Accessories; lamps by Feldman; wall decor by Art Originals and Crescent Framing. Public room furnishings: credenza by Jamestown Lounge; sofa by Stanbuilt; dining chairs by Empire State; banquettes by West Coast Industries; chandelier and lighting fixtures by Feldman; lamps and wall decor by Donald Hansen; overdraperies by Frankel Associates, with Lee Harris casements.

E. F. Hutton & Co., Inc., Universal City, Calif. ■ Paul Laszlo & Associates, Interior Designer

Red-carpet treatment for the movie colony is the latest thing at E. F. Hutton brokerage, where a private board room is reserved exclusively for movie-star clients at Universal City Studios. For command performances, a special Trans-Lux screen flashes quotations while the cast of clients lounges comfortably on sofas and chairs placed for convenient viewing. The carpeting, appropriately, is red; its pattern, grospoint Director. The main board room, however, offers other clients the same degree of comfort, though in a less private atmosphere. The color scheme is sedately done in brown and green.

Furniture in both areas was designed by Paul Laszlo, except for side armchairs (by Charlotte) in private room and desk chairs and armchairs (by Schafer Bros.) in main room. Cabinetwork, by Continental Store Equipment Co., is cherry with an antique finish in private room and walnut in main room. All carpeting is by Bigelow. DuPont's Kensington vinyl, in deep brown, surfaces the Trans-Lux screen wall in private room. Upholstery fabrics include DuPont's vinyl Paddington in main room, and F. Schumacher fabrics in private room. Drapery fabrics are by Textura, Ltd.; plastic laminates by Formica.

Photo: Camhi

Aerojet-General Corp, El Monte, Calif. ■ Keith Hutchinson, Interior Designer

A strong color range of burnt orange, gold, and earth tones sets the masculine mood for the office of board chairman Don Kimball, former Secretary of the Navy. Augmenting the general tone are the natural, heavy-textured qualities of jute, wool, and cotton, selected for upholstery and drapery fabrics in contrast with the fine wood finishes of furniture and wall paneling. Suppliers: Kasparian upholstered sofa, chairs; Stow/Davis desk, guest chairs, credenza, tables; Carson-Johnson desk chair; D. N. & E. Walter carpeting; Boris Kroll, Knoll Associates upholstery fabrics; Kamola Handweaves drapery fabrics.

The Gavel, Torrance, Calif. ■ IRS, Inc., Contract Furnisher/Interior Designer

Nearby law offices and a proposed courthouse inspired the name of the coffee shop/restaurant, and Margo Graham, IRS consultant, carried the legal theme throughout the quick-service facility. To complement the professional clientele, the entrance foyer is furnished to resemble a professional office waiting lounge, and inexpensive but intriguing English legal documents are framed under non-glare glass for wall decorations. With ease of maintenance and durability of materials prime considerations, the designer specified distressed wood table and counter surfaces to minimize abuse; counter stools are cantilevered from counter base; woven hemp fabric provides sturdy and attractive wallcoverings in the dining areas. Floor coverings as well, from the flagstone to patterned carpeting, meet the same functional requirements. IRS, Inc., design and contract division of Interstate Restaurant Supply, was also responsible for all kitchen facilities.

Suppliers: L&B Mfg. booths, tables, bases; Shelby Williams chairs, counter stools; General Tire & Rubber vinyl cane upholstery; United Store Equipment counter, service stations, back bar; Formica and Parkwood plastic laminates; Munro Lamps custom lighting fixtures and lamps.

The day the elevator operator stopped . . . and stared . . .

Here's a reception room no one can resist. A Risom Series "60" sofa made the difference. Seating that reflects a progressive attitude. Informal, but distinct. Bold, but dignified.

Notice the functional beauty of the clean-cut lines. Backs that are as handsome as the fronts. Never need a wall to cling to. Can be grouped to suit any taste, any space.

"Tight seating"... cushions that belie their detached look. Characteristic Risom seating that's comfortable, but supports.

Series "60" includes low chairs, two-seater and three-seater sofas with upholstered arms, wood arms, single arm and armless. 30 variations in all.

Be prepared to impress VIP's, clients and salesmen . . . even elevator operators. See the imaginative Series "60" at Risom showrooms nationally.

The answer is Risom.

49 E. 53rd St., N.Y. Also: Atlanta, Chicago, Los Angeles, San Francisco **Jens Risom Design Inc.**

there are some wall coverings we don't make

Cliff dwellings do pose problems for wall beautifiers, and not even Laminating Services is much help. But we're more help than anybody when you need to create impressive interiors for restaurants, offices, meeting rooms, bank lobbies, and the like.

No other manufacturer offers you such a broad range of quality wall coverings as Laminating Services. One unique material is Pliant Wood, shown below, a genuine wood veneer with fabric backing. Pliant Wood can be applied directly to existing walls, requires no furring strips, no alteration of existing woodwork. It's available in over 50 species in matched or random grade, including many exotic varieties.

There are many more: Vin-L-Fab, offering hundreds of colors, textures and patterns, such as Vin-L-Fab "22", a tough, solid vinyl that even comes in stripes in widths you specify . . . Wovan, for the soft beauty of woven cloth . . . and velvety Vin-L-Suede, of washable nylon.

No other manufacturer can answer so many of your wall covering needs.

For details write for Brochure No. 100(C).

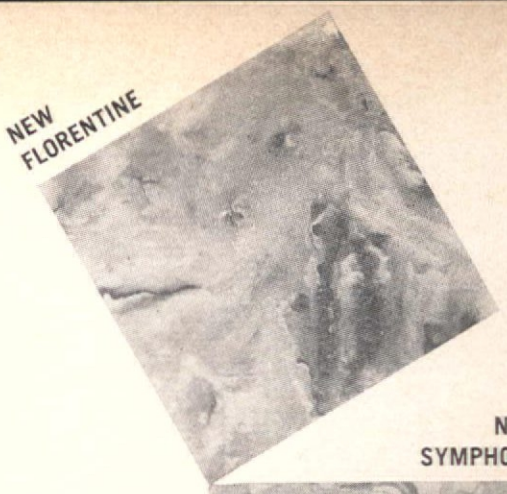
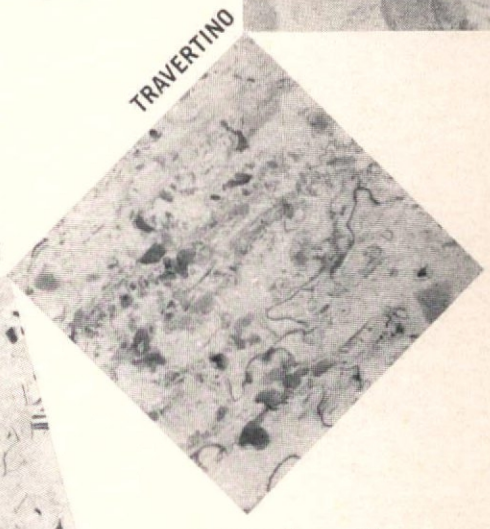
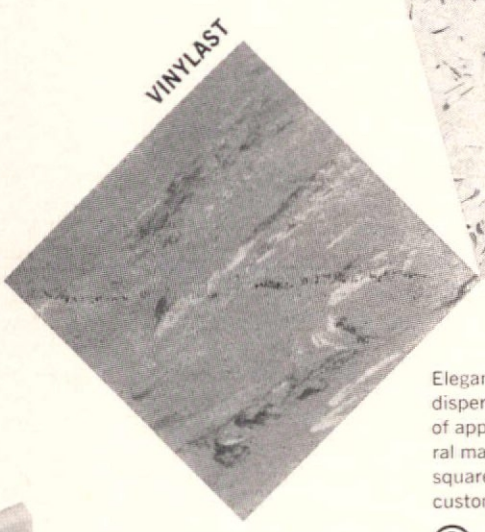
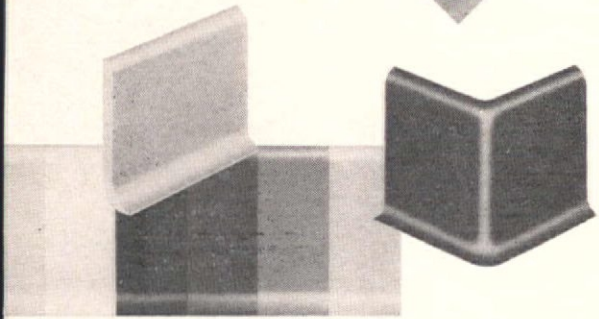
Now—a wider choice of colors and patterns

In popular VPI solid vinyl tile









51-156 COVE BASE

VPI solid vinyl tile is the preferred choice of many leading architects, builders, and building owners for contract installations. Here are some of their reasons:

VPI floors withstand static loads in excess of 250 PSA — 10 times more than asphalt or vinyl asbestos tile — without permanent indentation. Quiet and comfortable underfoot, they outwear other types of resilient flooring in heavy traffic areas . . . are less susceptible to staining, softening, and warping by greases, oils, and chemicals . . . and are less expensive to maintain.

Each tile is precision Micro-squared® to ensure true dimensions and squareness essential for easy installation and smooth, tight joints.

Write for our full color brochure and free tile samples in recommended contract patterns.

① NEW FLORENTINE
Elegance in solid vinyl! Subtly blended colors, dispersed in translucent vinyl, impart an effect of appealing richness unmatched by even natural marble. Eight lovely colors in 12" x 12" Micro-squared tiles, 37" x 37" untrimmed slabs and custom sizes. ⅛" and .080" gauges.

② NEW SYMPHONY
Newest note in prestige flooring, Symphony is a pleasing blend of delicate pastels swirling in gay abandon on a muted background. Flatteringly rich, yet surprisingly economical. Six colors in 9" x 9" and 12" x 12" Micro-squared tiles, 37" x 37" untrimmed slabs, custom sizes. ⅛" gauge only.

③ TRAVERTINO
Combines the rich appearance of travertine marble with the comfort, economy, and practical convenience of solid vinyl. Easy to clean, because it's smooth surfaced. And . . . like natural travertine marble . . . its beauty is long lasting—not "but skin deep" Seven muted colors in 12" x 12" Micro-squared tiles and 37" x 37" untrimmed slabs. ⅛" gauge only.

④ TERRALAST
Another popular tile for large areas. Terralast features a random pattern of pleasantly subdued chips. Sixteen coordinated colors in 9" x 9" and 12" x 12" Micro-squared tiles or untrimmed slabs. ⅛" and .080" gauges.

⑤ VINYLAST
Soft marbleized colors give this pattern an extremely pleasing appearance, making it one of the most popular for large, heavy-traffic areas. Sixteen coordinated colors. 9" x 9" and 12" x 12" Micro-squared tiles or untrimmed slabs. ⅛" and .080" gauges.

⑥ SOLID COLORS & COVE BASE
Twelve solid accent colors are offered in 9" x 9" and 12" x 12" Micro-squared tiles, 37" x 37" untrimmed slabs, custom sizes, and accent strips. VPI Cove base provides an easy-to-clean juncture between wall and floor. Available in 2½, 4 and 6-inch widths and ⅛" or .080" gauge, in eight decorator colors. Also, matching preformed outside corners in all sizes and colors.

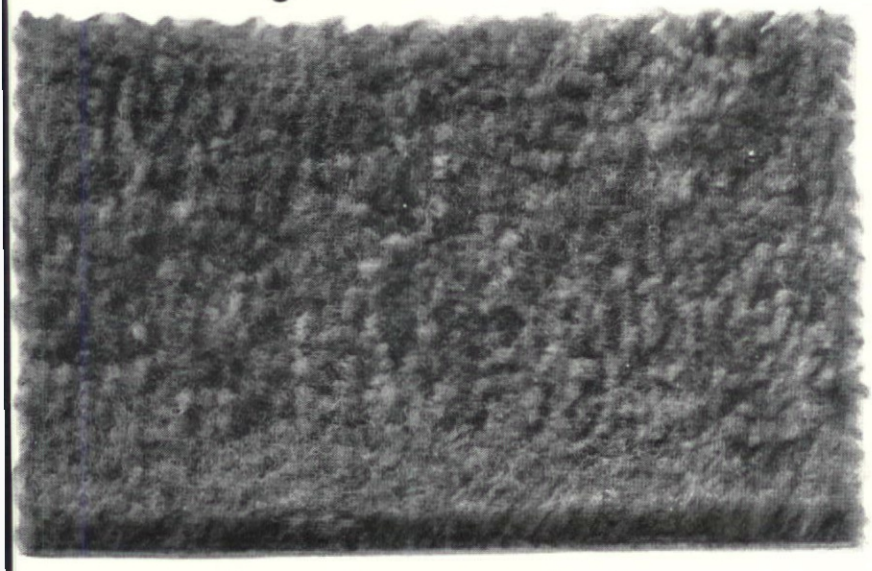
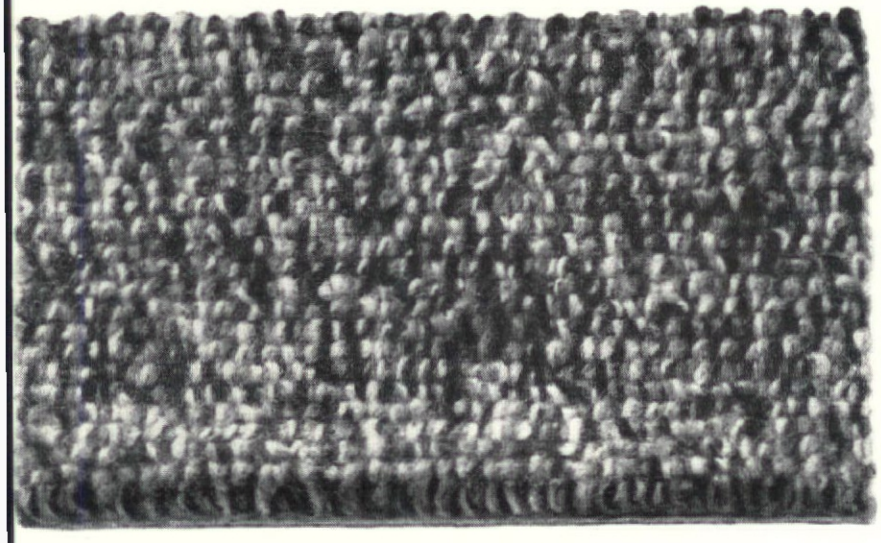
totally new



"Spice Islands." For the first time ever in contract carpet—the look, the luxury, the lavish multi-color combinations usually found only in costly custom carpets. This new elegance is achieved through *space dyeing*, a unique process that utilizes the complete color freedom of hand tufting. Any color, in any amount, can be placed anywhere in the deep, rich pile of 100% Creslan acrylic fiber. "Spice Islands" is a dramatic departure for commercial carpeting. See this true breakthrough, a combination of beauty, long wear, easy care.

or tried and true



"Pikes Peak" has proved one of the most successful types of contract carpet. It is tightly constructed in a low three-ply level loop for extra strength and stamina. The heaviest, most rugged traffic is taken in stride. In construction and concept, "Pikes Peak" surpasses the specifications of traditional carpets. The important differential is Creslan. This luxury acrylic fiber gives greater clarity of color. Color that stays fresh and true. Care is minimal. A simple sponging removes all but the most difficult stains. Vacuuming does the rest. See "Pikes Peak" in a choice of 10 three-color tweed combinations.

MODERN m CARPET has the contract carpeting for you.

Creslan acrylic fiber is a product of AMERICAN CYANAMID CO., N.Y.

Now that you've furnished the guest rooms...

Stay with the mood in your public areas.

It's another advantage we can give you. True, American of Martinsville is the recognized leader in contract furniture for hotels and motels. But we've been making furniture for the home even longer. In fact, our in-home collections often provide the inspiration for our contract designers.

So, when you're planning your suites and public areas, continue the feeling you've chosen for the rooms. Look into our extensive collections of upholstery and occasional pieces.

Write to Contract Division, American of Martinsville, Martinsville, Va., and ask for more information. Let us help you keep up the mood. Painlessly.

Roxbury Carpet Reads You

Roxbury knows your needs and knows what to do about them in commercial carpeting. Here you see "Tweed Lok," of 100% Creslan acrylic fiber. This fine carpet is right for the research library, the school library, executive offices, reception areas, classrooms, and other heavy traffic installations. The subtle colorings of "Tweed Lok" readily complement traditional or contemporary settings. In any location Creslan gives that extra stamina needed to maintain high appearance level with low maintenance. Most stains sponge right off while vacuuming does the rest. Whatever your carpeting requirements, "Tweed Lok" can meet them in great style with an outstanding range of colors. Creslan acrylic fiber is a product of AMERICAN CYANAMID CO. N.Y.

Real wood tops that cigarettes can't burn!

PENGUIN ARBATOVE TABLES

The most revolutionary advance in wood furniture! All wood occasional tables with *real wood tops* that resist cigarette burns, spilt liquor, juices and hot plates. A lit cigarette dropped on a new Arbatove table will *not* burn or leave any marks. *Real* wood tops—walnut or teak—that dissipate the heat. The most extraordinary tables you have ever seen. Six sizes, each in four heights. Write for new illustrated brochure. By the manufacturers of the famous Penguin Refrigerated Cabinets.

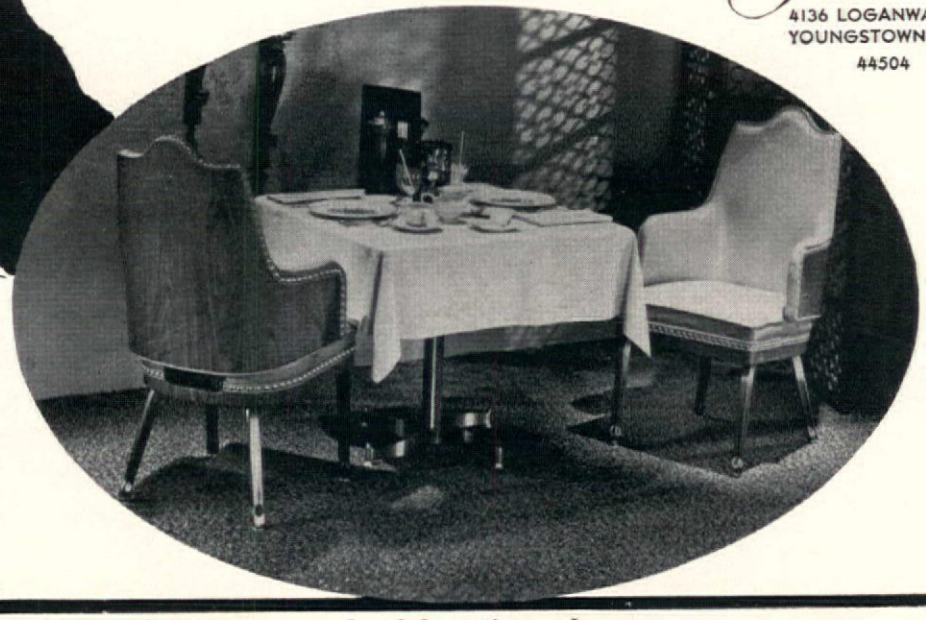
THE SPANISH INFLUENCE

SITTING in the "Alcazar," a new chair by Gasser, the critical guest will remember his dining hour as sixty minutes of SOLID COMFORT. If your designing happens to be in the mood of the Moors, consider "Alcazar" a chair that will take its place comfortably, at the finest table or lounging area.

Interior Designers! Write for YOUR complimentary set of chairs.

Gasser **CHAIR CO.**
4136 LOGANWAY
YOUNGSTOWN, OHIO
44504



Shown in photo, "Alcazar" #8100. An armless version, "Companero" #8101, is also available. Both of these chairs can be modified to English or Mediterranean styling. Dimensions: 23 in. wide, 24 in. deep, 42 in. high.

CONFORMISTS!

Krueger's Versatile New MODULAR SEATING

...conforms to any room size, space and seating requirement – with inviting comfort and heavy-duty durability!

Wherever people wait — seat them comfortably on Krueger Modular Seating units. Colorful, posture-curved fiberglass shells and carefree plastic-top tables are rigidly mounted on smartly-styled cast iron bases in two, three and four-unit variations — free-standing, ganged in-line or back-to-back. For added luxury, specify armless shells, foam-cushioned and fully upholstered in Naugahyde Chromata or a heavy-duty textured fabric. Take full seating advantage of any room, any size, with custom styling and selection of Krueger's New Modular Seating designs.

Contemporary shell styling in choice of armless or arm chair designs.

FURNITURE LASTS LONGER, retains

its new appearance and comfort

indefinitely with luxurious **BURKAIRE** *cushioning.*

B

Upholstered furniture won't lose its shape; covering materials won't sag, loosen nor wear excessively and prematurely when cushioned with Burkaire.

Because Burkaire is made by an exclusive process in which new cotton is impregnated with a plastic binder, it will never flatten out, crumble or turn to powder like many paddings made of other fibers. It remains softly, permanently resilient; will yield gently, not collapse under body weight. When pressure is removed it will quickly return to original thickness to keep upholstering materials taut and shapely. Burkaire does not create dust; is both insect and vermin-proof.

Burkaire costs no more than ordinary padding, adds nothing extra to cost. It is a major criterion of furniture value from the lowest priced kitchen chair to the most expensive custom piece. Specify, insist on Burkaire cushioning — there is no comparable substitute.

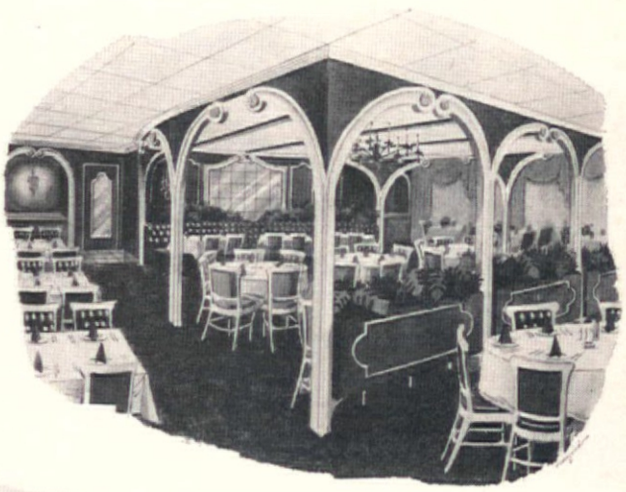
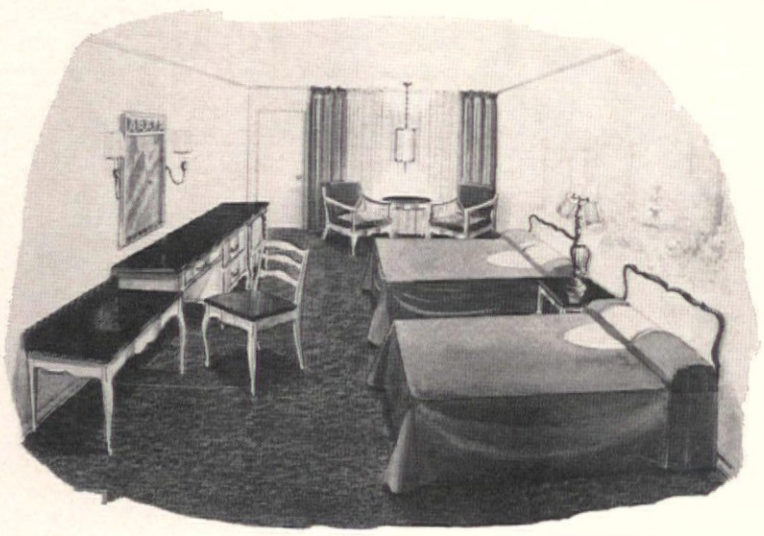
Houston's Beautiful New

RAMADA® INN

. . . another outstanding project of Finger Contract Supply Company

We have been privileged to custom design, decorate and furnish over 50 Ramada Inns throughout the nation . . . each distinctively different in appointments and decor. Whether your project be a domed stadium, hotel, motel, office building or apartment complex, our versatile design and decorating staff offers you over 3 decades of experience in this specialized field to help you solve your problems. We also offer flexible terms to meet your financial requirements.





Unique is the Ramada's continental dining room . . . using a dramatic color combination of green and orange to accent white table settings and soaring arches.

Blue predominates in this typical guest room at the new Ramada . . . an accent to the Mediterranean inspired furnishings and wall mural.

HOW NOT TO LOOK LIKE EVERYONE ELSE

By Milo Baughman

WHO SAYS IT CAN'T BE COMFORTABLE? WHO SAYS IT ALL HAS TO BE CHROME PLATED? WHO SAYS CLUTTER IS BAD? WHO SAYS IT CAN'T BE RELAXED? WHO SAYS THE OLD WOODWORK MUST GO? WHO SAYS IT HAS TO BE A MODERN PAINTING? WHO SAYS IT CAN'T BE A BIT LUSH? WHO SAYS IT HAS TO BE EXPENSIVE?

certainly not us!

High Point, North Carolina

THAYER COGGIN INSTITUTIONAL

WHO *can deliver custom design, quality and service on your contract orders for draperies, bedspreads and decorative fabrics?*

McCANLESS CAN!

McCanless has the fabrics, facilities and know-how to serve the custom needs of hotel, motel, commercial and institutional buyers. From a huge inventory of colors, patterns and weaves, McCanless delivers flawlessly-tailored draperies, bedspreads and fabric accessories to the job on time, ready to hang, at reasonable prices.

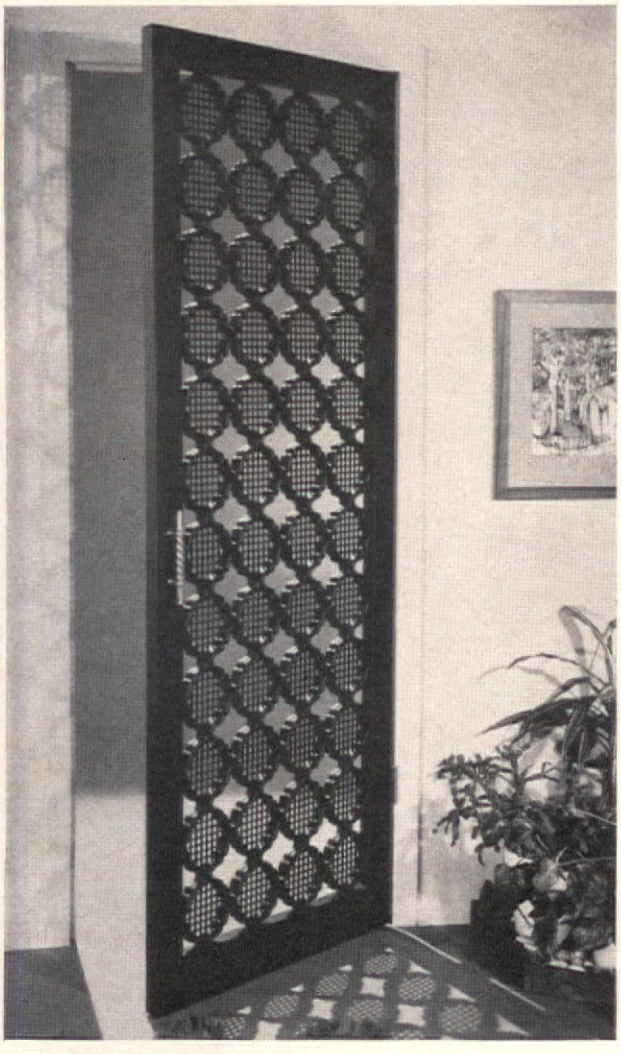
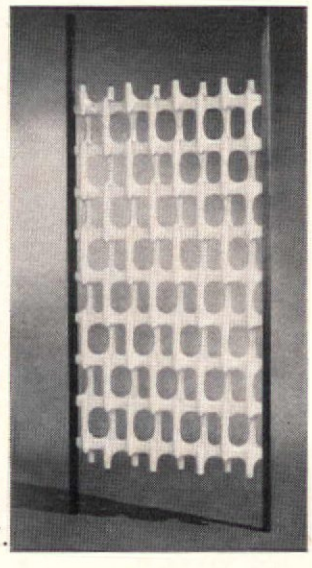
SCULPTA-GRILLE



DOORS Sculptured architectural panels carefully framed in various woods, make up our new and exciting group of decorative doors. Many variations available in grille design, color and frame finish.

DIVIDERS

Sculpta-Grille Contemporary C-10 design becomes a divider of unusual sculptural quality. These 5-inch deep lightweight panels are shipped completely fabricated to standard or custom specifications.



Write for our new Door & Divider Brochure. Our 1966 Architectural Brochure also available.

Permanent display: Architectural Materials Center, 101 Park Ave., N.Y.

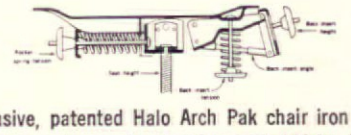
How to succeed in your next chair sale without really trying

If the client's a real stickler, show him this new Halo Arch Pak Executive Chair.

Massive and masculine, complete with pillow headrest, it's the kind of chair that flatters a man's ego while it rests his weary bones.

Built around the personal-adjustment Halo Arch Pak chair iron, finished in rugged leather and genuine walnut, it's a man's chair all the way.

Complete details on request.



The exclusive, patented Halo Arch Pak chair iron offers five adjustments: rocker spring tension, seat height, back insert height, back insert angle, back insert tension.

YORKRAFT!

Wall decorations—hand crafted in antiqued colors and woods

This is Yorkraft in a game room. Smashing success—color, humor, history, nostalgia, CHARM! Mix the same Yorkraft ingredients anywhere—a stairway, hall, bedroom—home or office, hotel or motel. Be big and bold *or* soft, subtle and elegant. Fun all the way, for you *and* your client. Showrooms in major cities.

40-PAGE COLOR CATALOG shows how to use hundreds of Yorkraft items brilliantly in many rooms, many spaces.

Can-do Chair Company...

The three C's have stood for Charlotte Chair Company for over fifty years. During those fifty years Charlotte has built a reputation for "CAN-DO". Interior people throughout the country have learned to turn to Charlotte for those special seating touches. They know that Charlotte "can-do" the exact chair they're looking for.

Charlotte experience, and know-how, both in design and in manufacturing can be used by you to give the exact effect and mood you desire. While Charlotte quality is always the finest, you'll find the costs to be pleasantly attractive, too. Give us a call. Perhaps we "CAN-DO" just the chair you need for that next seating job.

OUTDOOR OPULENCE

Aegean 1100 by Tropitone is the ultimate in quality casual furniture. Aegean was executed in the classic Greek manner by Donald Colby and Associates one of the country's leading design firms.

The frames are electronically welded, heavy-duty aluminum with a baked-on acrylic enamel finish. The 1" wide individual straps hold up under all kinds of weather, salt air, sun, rain, even snow. Table tops are specially made fiberglass, resistant to practically everything . . . and unbreakable too!

Tropitone can be seen at the finest hotels, resorts and individual residences from Hawaii to the Virgin Islands. If you don't already have our catalog, just ask for it.

for lasting beauty it's... BROWN-JORDAN

CENTURY by Brown-Jordan. The newest and the most practical of any all weather outdoor furniture, CENTURY combines all the construction excellence that, traditionally, has been Brown-Jordan's, plus many new innovations. CENTURY features:

- Chairs with durable two-inch wide vinyl straps — INDIVIDUALLY REPLACEABLE. Available in many color combinations.
- Chairs, chaises, small tables — STACKABLE. "PERMA-TOP," opaque table tops — in white or cactus, stain resistant, and color fast.
- Complete grouping including umbrella table, end table, arm chairs, side chairs, adjustable chaise, and sun chaise.
- HEAVY-DUTY all weather aluminum construction.
- Ideal for CONTRACT INSTALLATION.

"For Lasting Beauty" with CENTURY, write for further information.

BJ BROWN-JORDAN

Box 272, El Monte, California.

Showrooms in Los Angeles, Chicago, Miami, Dallas, San Francisco, Atlanta, Scottsdale, Arizona.

Shipped from two factories: Newport, Arkansas — El Monte, California.

The enduring charm of Colonial...clearly stated by THONET

This lounge grouping expresses in simple and direct design the principles of enduring style. Here, a beautiful tradition is refined to a linear clarity of construction; and strength engineered for continuous public use reflects the specialized techniques and craftsmanship developed over 130 years of Thonet leadership.
One look at Thonet's exciting and comprehensive selection of institutional furniture will show you what this can mean to you. On display at these **THONET SHOWROOMS:** New York, Chicago, Los Angeles, San Francisco, Dallas, Miami and Atlanta.

You can't judge a book by its cover

This one is a veritable reference library of information on ROVANA®/VEREL® drapery fabrics.

For example, did you know that they are available in translucency values offering minimum to maximum light control?

And colors! As shown, ROVANA®/VEREL® fabrics are available in a full range of colors from white, natural, and heather gray through all of today's popular decorator colors.

An added plus . . . ROVANA®/VEREL® fabrics are priced for budget installations as well as for lush executive offices and suites. And, regardless of price, all are inherently flame-proof and dimensionally stable.

Why not find out what these fabrics can do for you? Send for your free ROVANA®/VEREL® library today . . . from MAHARAM . . . the house that fabric built.

Please request on company letterhead

Available in a wide range of decorator colors.

Ozite "Town 'N' Terrace" Carpet made with Vectra polypropylene olefin fiber is not just another floor covering in competition with those you already know. It's in a class by itself—an entirely new *kind* of floor covering with features other carpets just don't have. The result? It opens up scores of new decorating ideas never before possible with conventional carpeting. Check the assignments you're working on now. You'll be surprised how many ways you can find to add dramatic creative touches with this new carpet. Note that because carpet is unaffected by water or moisture, it's practical to install below grade directly on cement floors. Turn this page for details on the remarkable technical advantages of Ozite "Town 'N' Terrace" Carpet, the remarkable new outdoor-indoor carpet made with new Vectra polypropylene olefin fiber.

IF PRODUCT OR PERFORMANCE DEFECTIVE
Good Housekeeping GUARANTEES
REPLACEMENT OR REFUND TO CONSUMER

Ozite® *Town 'N' Terrace Carpet made with* Vectra olefin fiber

*The Vectra Company · A division of National Plastic Products Company, Inc., Odenton, Md. · *Vectra is the exclusive trademark of the National Plastic Products Company, Inc. for its olefin fiber. Vectra makes fiber only, not fabrics or carpets. ®Ozite is the exclusive trademark of the Ozite Corporation, 7-120 Merchandise Mart, Chicago, Illinois, manufacturers of famous Ozite products for over 100 years. Ozite makes Town 'N' Terrace Carpet, not fiber.*

Tests prove the superiority of Ozite Outdoor-Indoor Carpet made with Vectra* fiber over floor covering costing twice as much!

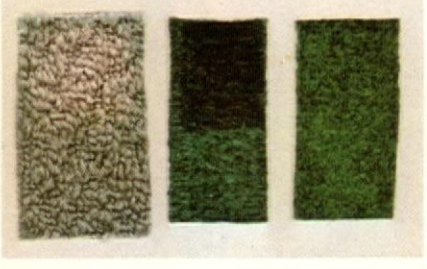
3,000 revolutions of abrasion test have $11.95 retail acrylic carpet down to the backing!

But, the abrasion wheel (Standard Taber Abraser), which can quickly spin off years of hard wear, barely makes a dent in new Ozite Outdoor-Indoor Carpet made with remarkable new Vectra polypropylene olefin fiber. Ozite's unique manufacturing method permits the use of staple fiber of higher tensile strength than normally used in regular carpeting.

Fadeometer Test

Wool 100 hours

Acrylic 160 hours



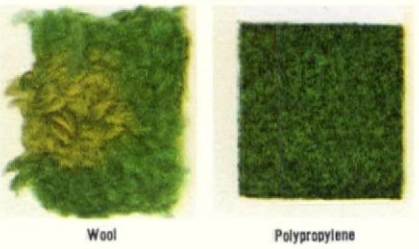
Nylon 100 hours

Polypropylene without stabilizers 216 hours

Polypropylene with stabilizers Over 2,000 hours

Most manufacturers of piece-dyed carpets try for 40 to 60 hours fade resistance. Even stock-dyed carpets strain to reach 200 hours. The special stabilizing chemicals used in the solution-dyed Vectra fiber enables it to resist ultra-violet rays —and permits Ozite to guarantee its carpet to withstand 500 hours of Fadeometer test without discoloration!

Stain Resistance

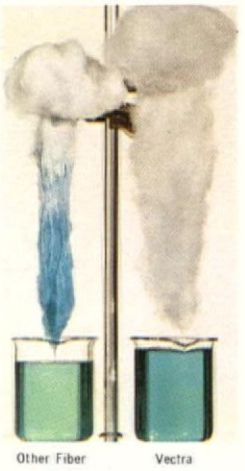


Wool **Polypropylene**

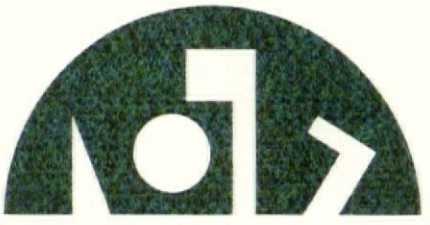
Vectra polypropylene fiber is resistant to most harmful chemicals that tend to bleach and stain competitive products, including most acids, alkalies, salts, solvents, and oxidizing agents. Ozite Outdoor-Indoor Carpet resists spotting and bleaching from ammonia, chlorine, coffee, tea, soft drinks, shoe polish, merthiolate, mustard, catsup—practically everything, including the accidents of dogs and children. Insects and mildew do not attack polypropylene. Fungus growth is not supported by the fiber itself. It does not absorb moisture—can't shrink, rot, or mildew. And it's non-static and non-allergenic, too.

Competitive carpet fibers absorb moisture to varying degrees, up to 27%.

A filament of Vectra reacts to water much like a solid glass rod. The water rolls right off. Vectra olefin fiber has zero (0%) moisture regain.



Other Fiber Vectra



Easy to install. Cuts with scissors or knife. Lies flat. Doesn't curl. No binding of exposed edges necessary. Does not need carpet cushion, tacking, or professional installation. And no adhesive is required. If desired, waterproof cement may be used outdoors. Indoors, double-faced tape may be used, or cement if you prefer.

And it's a breeze to maintain! Can actually be hosed clean. Simple to patch. Because Vectra fiber is impervious to moisture it can either be scrubbed clean or vacuumed. It dries fast. And patching for cigarette burns (can happen to any carpet, you know) is easily done in minutes with a razor blade and leftover pieces—and it won't show!

Every claim guaranteed by the Ozite Corporation.

The floors of the new Miller Builders Office Building, Lincolnwood, Ill., is covered with 2,200 sq. yds. of CCC Royalty pattern carpeting.

CONTRACT CARPET CORP. has complete facilities for handling all types of commercial floor coverings. As a representative for most major carpet manufacturers, we take over the complete transaction — from point-of-sale through to installation — using our own service and installation crews. We've done floor covering jobs in restaurants, motels, medical offices, office buildings, high rise apartment buildings and housing projects. For an obligation-free proposal, send us your specifications.

New Manufacturers-Hanover Trust Co. Finds "American" Draperies a Beautiful Investment

WHEN MANUFACTURERS-HANOVER built their new showcase of banking they demanded the best of everything. And when it came to draperies, they came to American Drapery. As conscientious craftsmen, we welcomed the opportunity to create and install special fibre glass draperies 33 feet high to be operated electronically. Working with their interior designer consultant, Eleanor Le Maire for color, unity and visibility . . . these special draperies shield out sunlight but allow excellent visibility from the outside; which permits passersbys full view of the interior.

When only the finest will do for you, call American Drapery. We'll welcome the opportunity of serving you. And you can be SURE, like Manufacturers-Hanover, you'll find our work a beautiful investment.

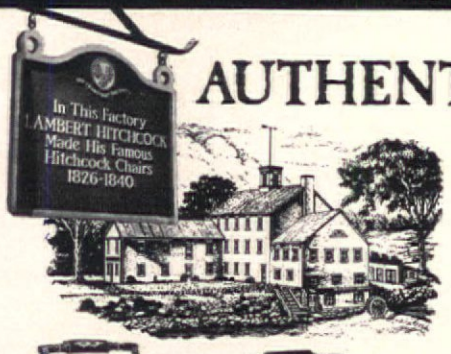
Each piece bears this signature — our registered trademark: L. HITCHCOCK. HITCHCOCKS-VILLE. CONN. WARRANTED.



AUTHENTIC NEW ENGLAND CHARM
...superb Hitchcock reproductions

Made in Lambert Hitchcock's original, restored factory — still handcrafted in many of the good time-proven ways — ways that can't be equalled where quality is the goal. We make not only chairs but beds, chests, tables, and mirrors, with equal attention to historical accuracy and beauty of design and ornamentation. We invite your inquiry about special stencilling to order.

we love heavyweights

The bigger they are, the harder they fall for Fibermold chairs . . . they're durable, solid—comfortable, too. Good styling makes them equally "at home" in the factory, cafeteria or the most fashionable shop. Good construction makes them practically indestructible. To see them, write, wire or phone:

For the Contract Designer . . . the Space Planner . . . the Contract Furnisher . . . the Architect . . .

It's Elegance by the Inch from Rhinecold-Alaska.

Just 30 inches of wall space provides the room for the brilliant Model AES/5GR compact kitchen, its elegant wood-grain and stainless steel exterior blending harmoniously with almost any decor. Its presence encourages imagination and gives unlimited flexibility for fresh, stimulating room settings.

Benefits: compactness, convenience, suitability to a variety of uses (motels, hospitals, schools, institutions...); and both esthetic and dimensional compatibility with a variety of building elements.

Available with and without sink or burners; electric or gas burner options; white or wood-grain finish; with *standard* capacious 5 c.f. refrigerator with true-width freezer.

Complete information on our kitchen combinations, as well as compact refrigerators and freezers is yours for the asking. Please ask.

Folded

...this table stores in just 5".

That's nothing, most people are surprised to learn it folds at all!

Decorator-styled, this Howe "500" table comes in 24 different sizes.

Features include: Self-edged top surfaced with Parkwood marproof plastic laminate. Black enamel or lustrous chrome legs; all four are controlled by a single operating lever.

Solid-as-a-rock, too.

Ideal for multi-purpose rooms and training areas.

For literature, write today.

Same in appearance as above, but floor supported.

Pat. Pend.

A new and exciting wardrobe, designed by Vogel-Peterson to harmonize with today's beautiful interiors. Wardrobe accommodations for from 4 to 6 people are screened by a 30" x 72" walnut panel. Mounts on the wall (off the floor). Brushed cast aluminum brackets hold the walnut shelf rods and support weight of panel. Furnished with brushed chrome hat holder and four solid walnut hangers mounted in sliding nylon receptacles.
